**About the IEC**

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

**About IEC publications**

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

**IEC Catalogue - [webstore.iec.ch/catalogue](http://webstore.iec.ch/catalogue)**

The stand-alone application for consulting the entire bibliographical information on IEC International Standards, Technical Specifications, Technical Reports and other documents. Available for PC, Mac OS, Android Tablets and iPad.

**IEC publications search - [www.iec.ch/searchpub](http://www.iec.ch/searchpub)**

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

**IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)**

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and also once a month by email.

**Electropedia - [www.electropedia.org](http://www.electropedia.org)**

The world's leading online dictionary of electronic and electrical terms containing 20 000 terms and definitions in English and French, with equivalent terms in 16 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

**IEC Glossary - [std.iec.ch/glossary](http://std.iec.ch/glossary)**

65 000 electrotechnical terminology entries in English and French extracted from the Terms and Definitions clause of IEC publications issued since 2002. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

**IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)**

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [csc@iec.ch](mailto:csc@iec.ch)

## CONTENTS

FOREWORD.....	13
INTRODUCTION.....	14
1 Scope.....	15
2 Normative references .....	15
3 Terms and definitions .....	15
4 Abbreviated terms .....	16
5 Summary of Use Case Scenarios .....	18
5.1 General.....	18
5.2 Use Cases .....	18
5.2.1 Summary.....	18
6 Context of Use for the IoT Use cases .....	25
6.1 Global.....	25
6.2 Transport infrastructure.....	25
6.3 Home.....	25
6.4 Public buildings.....	25
6.5 Offices .....	25
6.6 Factories.....	25
6.7 Process plants.....	25
6.8 Agriculture .....	26
6.9 Forestry .....	26
6.10 Fishing.....	26
6.11 Body and personal .....	26
6.12 Healthcare .....	26
6.13 Vehicles.....	26
6.14 Smart Cities .....	26
7 Use Case Scenarios .....	27
7.1 IoT Network Security (Use Case number 1 in Table 1) .....	27
7.1.1 Scope and Objectives of Use Case.....	27
7.1.2 Narrative of Use Case .....	27
7.1.3 Actors.....	29
7.1.4 Issues: Legal Contracts, Legal Regulations, and Constraints.....	29
7.1.5 Referenced Standards and/or Standardization Committees .....	29
7.1.6 Relation with Other Known Use Cases.....	30
7.1.7 General Remarks.....	30
7.1.8 Security and Privacy.....	31
7.1.9 Conformity Aspects and Critical Requirements .....	31
7.1.10 Interaction between Actors and User Requirements.....	31
7.1.11 Diagram of Use Case.....	31
7.1.12 Data Flow Diagram of Use Case .....	31
7.2 IoT Security Threat Detection and Management (Use case number 2 in Table 1) .....	31
7.2.1 Scope and Objectives of Use Case.....	31
7.2.2 Narrative of Use Case .....	32
7.2.3 Actors.....	33
7.2.4 Issues: Legal Contracts, Legal Regulations, and Constraints.....	33
7.2.5 Referenced Standards and/or Standardization Committees .....	33

Tech STANDARD PREVIEW  
(standards.iteh.ai)

[ISO/IEC TR 22417:2017](https://standards.iteh.ai/catalog/standards/sist/1caf8964-ac35-49b4-8b56-22ed9e968c72/iso-iec-tr-22417-2017)

<https://standards.iteh.ai/catalog/standards/sist/1caf8964-ac35-49b4-8b56-22ed9e968c72/iso-iec-tr-22417-2017>

7.2.6	Relation with Other Known Use Cases.....	34
7.2.7	General Remarks.....	34
7.2.8	Security and Privacy.....	34
7.2.9	Conformity Aspects and Critical Requirements .....	34
7.2.10	Interaction between Actors and User Requirements.....	34
7.2.11	Diagram of Use Case.....	35
7.2.12	Data Flow Diagram of Use Case .....	35
7.3	Remote Management of Large Equipment in a Plant (Use case number 3 in Table 1) .....	36
7.3.1	Scope and Objectives of Use Case.....	36
7.3.2	Narrative of Use Case .....	36
7.3.3	Actors.....	37
7.3.4	Issues: Legal Contracts, Legal Regulations, and Constraints .....	37
7.3.5	Referenced Standards and/or Standardization Committees .....	38
7.3.6	Relation with Other Known Use Cases.....	38
7.3.7	General Remarks.....	38
7.3.8	Security and Privacy.....	38
7.3.9	Conformity Aspects and Critical Requirements .....	38
7.3.10	Interaction between Actors and User Requirements.....	38
7.3.11	Diagram of Use Case.....	39
7.3.12	Data Flow Diagram of Use Case.....	39
7.4	Automated ICC Profile Discovery (Use case number 4 in Table 1) .....	39
7.4.1	Scope and Objectives of Use Case.....	39
7.4.2	Narrative of Use Case .....	39
7.4.3	Actors.....	40
7.4.4	Issues: Legal Contracts, Legal Regulations, and Constraints .....	41
7.4.5	Referenced Standards and/or Standardization Committees .....	41
7.4.6	Relation with Other Known Use Cases.....	41
7.4.7	General Remarks.....	41
7.4.8	Security and Privacy.....	41
7.4.9	Conformity Aspects and Critical Requirements .....	41
7.4.10	Interaction between Actors and User Requirements.....	42
7.4.11	Diagram of Use Case.....	42
7.4.12	Data Flow Diagram of Use Case.....	43
7.5	Tracking of Farm Products (Use case number 5 in Table 1) .....	43
7.5.1	Scope and Objectives of Use Case.....	43
7.5.2	Narrative of Use Case .....	43
7.5.3	Actors.....	44
7.5.4	Issues: Legal Contracts, Legal Regulations, Constraints.....	45
7.5.5	Referenced Standards and/or Standardization Committees .....	45
7.5.6	Relation with Other Known Use Cases.....	45
7.5.7	General Remarks.....	45
7.5.8	Security and Privacy.....	46
7.5.9	Conformity Aspects and Critical Requirements .....	46
7.5.10	Interaction between Actors and User Requirements.....	46
7.5.11	Diagram of Use Case.....	47
7.5.12	Data Flow Diagram of Use Case.....	48
7.6	Warehouse Goods Monitoring (Use case number 6 in Table 1) .....	48
7.6.1	Scope and Objectives of Use Case.....	48

ITeH STANDARD PREVIEW  
(standards.iteh.ai)

ISO/IEC TR 22417:2017

7.6.2	Narrative of Use Case .....	48
7.6.3	Actors .....	49
7.6.4	Issues: Legal Contracts, Legal Regulations, Constraints .....	51
7.6.5	Referenced Standards and/or Standardization Committees .....	51
7.6.6	Relation with Other Known Use Cases .....	51
7.6.7	General Remarks .....	52
7.6.8	Security and Privacy .....	52
7.6.9	Conformity Aspects and Critical Requirements .....	52
7.6.10	Interaction between Actors and User Requirements .....	52
7.6.11	Diagram of Use Case .....	52
7.6.12	Data Flow Diagram of Use Case .....	52
7.7	Cooperation between Factories and Remote Applications (Use case number 7 in Table 1) .....	53
7.7.1	Scope and Objectives of Use Case .....	53
7.7.2	Narrative of Use Case .....	53
7.7.3	Actors .....	55
7.7.4	Issues: Legal Contracts, Legal Regulations, Constraints .....	56
7.7.5	Referenced Standards and/or Standardization Committees .....	56
7.7.6	Relation with Other Known Use Cases .....	56
7.7.7	General Remarks .....	56
7.7.8	Security and Privacy .....	56
7.7.9	Conformity aspects and Critical Requirements .....	56
7.7.10	Interaction between Actors and User Requirements .....	56
7.7.11	Diagram of Use Case .....	57
7.7.12	Data Flow Diagram of Use Case .....	57
7.8	Searching System for People with Cognitive Impairment (Use case number 8 in Table 1) .....	58
7.8.1	Scope and Objectives of Use Case .....	58
7.8.2	Narrative of Use Case .....	58
7.8.3	Actors .....	58
7.8.4	Issues: Legal Contracts, Legal Regulations, Constraints .....	59
7.8.5	Referenced Standards and/or Standardization Committees .....	59
7.8.6	Relation with Other Known Use Cases .....	59
7.8.7	General Remarks .....	59
7.8.8	Security and Privacy .....	59
7.8.9	Conformity aspects and Critical Requirements .....	59
7.8.10	Interaction between Actors and User Requirements .....	59
7.8.11	Diagram of Use Case .....	60
7.8.12	Data Flow Diagram of Use Case .....	60
7.9	Sleep Monitoring System (Use case number 9 in Table 1) .....	60
7.9.1	Scope and Objectives of Use Case .....	60
7.9.2	Narrative of Use Case .....	60
7.9.3	Actors .....	61
7.9.4	Issues: Legal Contracts, Legal Regulations, Constraints .....	61
7.9.5	Referenced Standards and/or Standardization Committees .....	62
7.9.6	Relation with Other Known Use Cases .....	62
7.9.7	General Remarks .....	62
7.9.8	Security and Privacy .....	62
7.9.9	Conformity Aspects and Critical Requirements .....	62

ITIH STANDARD PREVIEW

## INFORMATION TECHNOLOGY – INTERNET OF THINGS (IOT) – IOT USE CASES

### FOREWORD

- 1) ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work. In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1.
- 2) The formal decisions or agreements of IEC and ISO on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees and ISO member bodies.
- 3) IEC, ISO and ISO/IEC publications have the form of recommendations for international use and are accepted by IEC National Committees and ISO member bodies in that sense. While all reasonable efforts are made to ensure that the technical content of IEC, ISO and ISO/IEC publications is accurate, IEC or ISO cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees and ISO member bodies undertake to apply IEC, ISO and ISO/IEC publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any ISO, IEC or ISO/IEC publication and the corresponding national or regional publication should be clearly indicated in the latter.
- 5) ISO and IEC do not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. ISO or IEC are not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or ISO or its directors, employees, servants or agents, including individual experts and members of their technical committees and IEC National Committees or ISO member bodies for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication of, use of, or reliance upon, this ISO/IEC publication or any other IEC, ISO or ISO/IEC publications.
- 8) Attention is drawn to the normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this ISO/IEC publication may be the subject of patent rights. ISO and IEC shall not be held responsible for identifying any or all such patent rights.

The main task of the joint technical committee is to prepare International Standards. However, the joint technical committee may propose the publication of a Technical Report when it has collected data of a different kind from that which is normally published as an International Standard, for example "state of the art".

ISO/IEC TR 22417, which is a Technical Report, was prepared by subcommittee 41: Internet of Things and related technologies, of ISO/IEC joint technical committee 1: Information technology.

This Technical Report has been approved by vote of the member bodies, and the voting results may be obtained from the address given on the second title page.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.
