

Designation: D7108 – 12 (Reapproved 2018)

Standard Guide for Establishing Qualifications for a Nuclear Coatings Specialist¹

This standard is issued under the fixed designation D7108; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This guide delineates recommendations for development of procedures and criteria for designation of an individual as a Nuclear Coatings Specialist involved in coating work in nuclear facilities. The Nuclear Coatings Specialist is responsible for the technical aspects of the safety-related coatings program in a nuclear facility or organization, which includes establishing processes and quality control requirements.

1.2 This guide details the guidance provided in Guide [D5144](#), and EPRI Report 1019157.

1.3 It is the intent of this guide to provide several alternatives for designation of personnel as Nuclear Coatings Specialists.

1.4 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety, health, and environmental practices and determine the applicability of regulatory limitations prior to use.*

1.5 *This international standard was developed in accordance with internationally recognized principles on standardization established in the Decision on Principles for the Development of International Standards, Guides and Recommendations issued by the World Trade Organization Technical Barriers to Trade (TBT) Committee.*

2. Referenced Documents

2.1 *ASTM Standards:*²

[D4537](#) Guide for Establishing Procedures to Qualify and Certify Personnel Performing Coating and Lining Work Inspection in Nuclear Facilities

[D4538](#) Terminology Relating to Protective Coating and Lining Work for Power Generation Facilities

¹ This guide is under the jurisdiction of ASTM Committee D33 on Protective Coating and Lining Work for Power Generation Facilities and is the direct responsibility of Subcommittee D33.04 on Quality Systems and Inspection.

Current edition approved Aug. 15, 2018. Published November 2018. Originally approved in 2005. Last previous edition approved in 2012 as D7108 – 12. DOI: 10.1520/D7108-12R18.

2.3 *Electric Power Research Institute (EPRI):*⁴

[EPRI Report 1019157](#) Guidance on Nuclear Safety-Related Coatings, Revision 2 (formerly TR-109937 and 1003102), December 2009

2.4 *Code of Federal Regulations (CFR):*⁵

[10CFR21](#) Reporting of Defects and Nonconformance

[10CFR50.59](#) Changes, Tests and Experiments

3. Terminology

3.1 *Definitions*—Definitions for use with this standard are shown in Terminology [D4538](#) or other applicable standards.

3.2 *Definitions of Terms Specific to This Standard:*

3.2.1 *safety-related coatings program, n*—the systematic and planned activities conducted at a nuclear power plant to ensure that the safety-related coatings and linings perform all of their design functions.

4. Significance and Use

4.1 This guide applies to personnel technically responsible for the safety-related coatings program.

4.2 It is the responsibility of each nuclear facility or organization participating in a safety-related coatings program to ensure that only those personnel within their respective organizations who meet the requirements of this guide are designated as Nuclear Coatings Specialists.

5. General Duties and Responsibilities of a Nuclear Coatings Specialist

5.1 The duties of a Nuclear Coatings Specialist should be detailed in the facility safety-related coatings program and typically may include, but are not limited to:

³ Available from American National Standards Institute (ANSI), 25 W. 43rd St., 4th Floor, New York, NY 10036, <http://www.ansi.org>.

⁴ Available from Electric Power Research Institute, 3420 Hillview Ave., Palo Alto, CA 94304, <http://www.epri.com>.

⁵ Available from U.S. Government Printing Office Superintendent of Documents, 732 N. Capitol St., NW, Mail Stop: SDE, Washington, DC 20401, <http://www.access.gpo.gov>.
