Foreword

This European Telecommunication Standard (ETS) has been prepared by the Network Aspects (NA) Technical Committee of the European Telecommunications Standards Institute (ETSI).

This ETS defines the conformance specification for the Medium Access Control (MAC) layer management as defined in ETS 300 273 [1].

1 Scope

This European Telecommunication Standard (ETS) defines the conformance specification for the Medium Access Control (MAC) layer management, as defined in ETS 300 273 [1].

2 Normative references

This ETS incorporates, by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed below. For dated references, subsequent amendments to or revisions of these publications apply to this ETS only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

- [1] ETS 300 273: "Network Aspects (NA); Metropolitan Area Network (MAN) Medium Access Control (MAC) layer management".

3 Definitions, symbols and abbreviations

For the purposes of this ETS, the definitions, symbols and abbreviations as defined in ETS 300 273 [1] shall apply.

Additionally, for this ETS, the following abbreviations are used in defining the support type of a feature, parameter or capability.

m mandatory

o optional

c conditional

n/a not applicable

4 Conformance specifications

To facilitate the cross-referencing of this ETS with ETS 300 273 [1], the relevant Clause and subclause numbers from ETS 300 273 [1] are indicated in the title of each table.

ETS 300 273 [1], Clause 4: MAC layer management

Table 1: Subclause 4.2.1, MAC layer management interface

Item	Feature	Status	Predicate	Support
.1	Layer management interface	m		Y/N/X
.2	Configuration control	c:m n/a n/a	looped multipoint if open bus UMI if point-to-point	Y/N/X
