This amendment 1 modifies the European Standard EN ISO/IEC 7816-5:1995. This amendment was approved by CEN on 1997-06-21. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of the Amendment ISO/IEC 7816-5:1994/A1:1996 to the International Standard from Technical Committee ISO/TC/JTC 1 "Information technology" of the International Organization for Standardization (ISO) has been taken over as an Amendment to the European Standard by Technical Committee CEN/TC 224 "Machine-readable cards, related device interfaces and operations", the secretariat of which is held by AFNOR.

This Amendment to the European Standard EN ISO/IEC 7816-5:1994 shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 1998, and conflicting national standards shall be withdrawn at the latest by January 1998.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Endorsement notice

The text of the Amendment to the International Standard ISO/IEC 7816-5:1994/Amendment 1:1996 has been approved by CEN as an Amendment to the European Standard without any modification.

AMENDEMENT 1

Reference number
ISO/IEC 7816-5:1994/Amd.1:1996(E)

ISO/IEC 7816-5:1994/Amd.1:1996(E)**Foreword**

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Amendment 1 to International Standard ISO/IEC 7816-5:1994 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 17, *Identification cards and related devices*.

Clause 7

Replace by the following:

iTeh STANDARD PREVIEW
(standards.iteh.ai)

7 Registration of identifiers

7.1.2 Criteria for approval and rejection of requests

7.1 Request and registration procedures

SIST EN ISO/IEC 7816-5:1997/A1:1997

<https://standards.iteh.ai/catalog/standards/sist/7ebc9584-6781-4f4d-a8b5-bcd990bcc618/sist-en-iso-iec-7816-5-1997-a1-1997>

7.1.2.1 Criteria for approval of a request for a RID

7.1.1 Request procedure for an internationally registered RID

An application provider (including international organisations) shall apply to the standards body of its related country (i.e. national standards body) or agent appointed to act for its national member body, or in the absence of a national standards body, to the secretariat of the ISO technical body responsible for this part of ISO/IEC 7816 for the assignment of an internationally registered RID using the form shown in annex A. Registration forms are also available, on request, from the ISO/IEC 7816-5 Registration Authority, the secretariat of the Registration Management Group (RMG) and the secretariat of the ISO technical body responsible for this part of ISO/IEC 7816. The national standards body or the secretariat of the ISO technical body responsible for this part of ISO/IEC 7816 then acts as the "Sponsoring Authority" (see 7.4) with respect to the request.

Requests for a RID shall meet all the following criteria:

- a) the RID being issued shall be for use in an international environment;
- b) the applicant shall be:
 - a corporate entity or its subsidiaries operating under a specific legislative regulation,
 - an international organisation in charge of specification of IC card applications;
- c) the applicant requesting a RID shall not already have a RID assigned to it in its own right. Exceptionally an applicant may apply for more than one RID, subject to decision by the RMG;
- d) the RID shall be used within one year from registration.

7.1.2.2 Criteria for rejection of a request for a RID

A request for a RID shall be rejected if any of the following conditions exist:

- a) the applicant does not meet the criteria as defined in 7.1.2.1;
- b) the applicant is not an application provider as defined in 3.1.2;
- c) the applicant has requested a specific number or the reservation in the register of a specific number or has made a request which is outside the scope of this part of ISO/IEC 7816;

NOTE: Where special circumstances exist, the Sponsoring Authority may approve a request and forward the request to the ISO/IEC 7816-5 Registration Authority for assignment of a number. All such assignments must be reported by the Sponsoring Authority to the RMG.

- d) the RID is intended to be used to identify or differentiate between branches within the applicant's organisation (i.e. these branches are not separate corporate entities).

7.2 Appeal process <https://standards.iteh.ai/catalog/standards/sist/7ebe9584-6781-4f4d-a8b5-bcd990bcc618/sist-en-iso-iec-7816-5-1997-a1-1997>

7.2.1 Appeal bodies

Where a request has been rejected by a Sponsoring Authority the applicant may appeal to the secretariat of the RMG (see 7.5). Where a request has been rejected by the RMG, the applicant may appeal to the ISO technical body responsible for this part of ISO/IEC 7816 through the secretariat of that ISO technical body. Applicants may submit for appeal requests that have been rejected by the ISO technical body responsible for this part of ISO/IEC 7816 to the ISO Central Secretariat.

Appeal against rejection of a request shall be submitted to the appropriate body within 90 days of the date of the letter of rejection.

7.2.2 Information to be provided

Where a request has been rejected by the Sponsoring Authority, the following information shall be provided by the applicant to the relevant appeal body in support of the appeal:

- a) statement of which rejection clause (see 7.1.2.2) is disputed and why the applicant believes that the rejected request fulfils the criteria for acceptance (see 7.1.2.1);

- b) statement of special circumstances whereby a specific requirement of the rejected request can be met, but such requirement is outside the current procedures and criteria for acceptance outlined in this international standard.

7.3 Responsibilities of applicants

The responsibilities of applicants shall be:

- a) to comply fully with the numbering system and the procedures for requesting RIDs as contained in this part of ISO/IEC 7816;

- b) to forward to its national standards body or agent appointed to act for its national member body, or in the absence of a national standards body, to the secretariat of the ISO technical body responsible for this part of ISO/IEC 7816, a completed registration form, (see annex A) together with the requisite fee;

NOTE: The registration fee is not refundable.

- c) to retain the completed registration form containing the RID assigned to the applicant by the ISO/IEC 7816-5 Registration Authority;

- d) to provide applications using the RID assigned to the applicant by the ISO/IEC 7816-5 Registration Authority within a reasonable time frame;

- e) to inform the Sponsoring Authority of any modification to the data related to the assigned RID.

7.4 Sponsoring Authorities

7.4.1 Eligibility to become a Sponsoring Authority

The following bodies may act as Sponsoring Authorities in processing requests for RIDs:

- a) any national member body of ISO (or agent appointed to act for its national member body);

b) the ISO technical body responsible for this part of ISO/IEC 7816; and

c) any group, except the RMG, within the ISO technical body appointed for purposes concerning a registration system for applications in IC cards.

7.4.2 Responsibilities

The responsibilities of a Sponsoring Authority shall be:

a) to fully comply with the numbering system and procedures for requesting RIDs in this part of ISO/IEC 7816;

b) to process within 30 days of receipt of requests, requests for RIDs from within their countries or areas of responsibility;

c) to notify the applicant in writing, within 30 days of receipt of the request, as to the disposition of their request. If rejected, to advise the applicant of the reason(s) and the applicant's right to appeal;

d) ensure that section "A1" of the registration form has been correctly completed;

e) confirm whether or not the applicant already has a RID;

f) to forward to the ISO/IEC 7816-5 Registration Authority (see 7.7) requests for RIDs that meet the approval criteria, together with the requisite fee in a form determined by the ISO/IEC 7816-5 Registration Authority;

g) on receipt of the number assignment from the ISO/IEC 7816-5 Registration Authority, the Sponsoring Authority shall inform the applicant of the number assignment, returning the completed registration form containing the number assignment to the applicant informing it of the requirement to retain the completed registration form as a permanent record and the necessity of informing the Sponsoring Authority of any change to the details on the registration form;

h) to reject requests for a specific number and for reservation of a specific number or any request outside the scope of this part of ISO/IEC 7816. Or, where special circumstances exist, to approve such a request and to put forward a copy of the relevant papers to the RMG for review;

i) to respond to general enquiries covering this part of ISO/IEC 7816;

j) to establish and maintain a national numbering system where necessary according to this part of ISO/IEC 7816 annex B;

k) to forward to the ISO/IEC 7816-5 Registration Authority any modification to the data related to an assigned RID as notified by the applicant.

7.5 Registration Management Group (RMG)

7.5.1 Constitution

In order to effectively manage the Registration system for applications in IC cards, the ISO technical body responsible for this part of ISO/IEC 7816 has established a RMG, reporting to ISO/IEC JTC1/SC17, which is delegated to act on its behalf.

The RMG shall be made up of:

a) a representative of the ISO/IEC 7816-5 Registration Authority who shall be a non-voting member of the RMG and shall be expected to attend all meetings;

b) each P and L member of the ISO technical body responsible for this part of ISO/IEC 7816 is entitled to nominate one delegate and one alternate to the RMG. The alternate may attend all meetings but is entitled to vote only in the absence of the principal delegate;

c) the convenor of the RMG and the secretariat of the RMG, nominated from the membership of the RMG;

d) the Secretariat of the technical body responsible for this International Standard (i.e. ISO/IEC JTC1/SC17).
