

Designation: **D977 – 19a^{ε1} D977 – 20**

Standard Specification for Emulsified Asphalt¹

This standard is issued under the fixed designation D977; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reappraisal. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reappraisal.

This standard has been approved for use by agencies of the U.S. Department of Defense.

^{ε1} NOTE—The headings in Table 1 were corrected editorially in December 2019.

1. Scope

1.1 This specification covers 13 grades of emulsified asphalt for use in pavement construction in the manner designated.

1.2 The values stated in SI units are to be regarded as standard. No other units of measurement are included in this standard.

1.3 *This international standard was developed in accordance with internationally recognized principles on standardization established in the Decision on Principles for the Development of International Standards, Guides and Recommendations issued by the World Trade Organization Technical Barriers to Trade (TBT) Committee.*

3. Requirements

3.1 The emulsified asphalt shall be tested within 14 days of delivery. The emulsified asphalt shall be homogeneous after thorough mixing, provided separation has not been caused by freezing. Emulsified asphalts separated by freezing shall not be tested.

3.2 Emulsified asphalt shall conform to the requirements prescribed in [Table 1](#). Specify the test method to be used. Specify either Test Method [D7226](#) or [D7496](#).

4. Sampling

4.1 Samples of emulsified asphalt shall be taken in accordance with Practice [D140/D140M](#).

¹ This specification is under the jurisdiction of ASTM Committee [D04](#) on Road and Paving Materials and is the direct responsibility of Subcommittee [D04.41](#) on Emulsified Asphalt Specifications.

Current edition approved Nov. 1, 2019/July 1, 2020. Published November 2019/July 2020. Originally approved in 1948. Last previous edition approved in 2019 as [D977 – 19](#); [D977 – 19a](#). DOI: [10.1520/D0977-19AE01](#); [10.1520/D0977-20](#).

TABLE 1 Requirements for Emulsified Asphalt

NOTE 1—QS-1h emulsions shall meet the requirements outlined in Practices **D3910**.

NOTE 2—QS-1h is used for quick-set slurry seal systems.

NOTE 3—For viscosity, specify either Test Method **D7226** or **D7496**.

NOTE 4—Specify either ash content (Test Method **D8078**) or solubility tests (Test Method **D2042** or **D7553**).
