FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5243 was developed by Technical Committee ISO/TC 72, *Textile machinery and accessories*, and was circulated to the member bodies in December 1975.

STANDARD PREVIEW
(standards.iteh.ai)

It has been approved by the member bodies of the following countries:

Belgium	India	Switzerland
Brazil	Netherlands	Turkey
Czechoslovakia	Poland	United Kingdom
France	Romania	U.S.S.R.
Germany	Spain	

No member body expressed disapproval of the document.

Textile machinery and accessories – Numbering of heald frames in a loom

1 SCOPE AND FIELD OF APPLICATION

This International Standard specifies the principle of numbering of heald frames in a loom.

2 NUMBERING OF HEALD FRAMES

The numbering of the heald frames is made from the cloth delivery side of a loom (see the figure).
