This amendment A2 modifies the European Standard EN 1775:1998; it was approved by CEN on 28 October 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for inclusion of this amendment into the relevant national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This Amendment EN 1775:1998/A2:2000 to EN 1775:2000 has been prepared by Technical Committee CEN/TC 234 "Gas supply", the secretariat of which is held by DIN.

This Amendment to the European Standard EN 1775:1998 shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by July 2000, and conflicting national standards shall be withdrawn at the latest by July 2000.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

This amendment A2 gives a supplement to the scope following resolution BT 53/1998.

The CEN/TC 234 functional standards specify the common appropriate principles and the recognised practices concerning design, construction, operation and maintenance, all for the safety and integrity of gas supply systems, taking the form of general recommendations and/or requirements.

These standards may be complemented by more detailed and/or restrictive national standards.

1 Scope

Add the following as fourth paragraph of Clause 1.1:

„In the event of conflicts in terms of more restrictive requirements in national legislation/regulation with the requirements of this standard, the national legislation/regulation shall take precedence as illustrated in CR 13737:2000.“

NOTE: The CR 13737:2000 contains:

- the clarification of all legislations/regulations applicable in a country;
- if appropriate, more restrictive national requirements there of;
- a national contact point for the latest information.
