This European Standard was approved by CENELEC on 1998 04 01 CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration

Up to date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member

This European Standard exists in three official versions (English French German) A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions

CENELEC members are the national electrotechnical committees of Austria Belgium Czech Republic Denmark Finland France Germany Greece Iceland Ireland Italy Luxembourg Netherlands Norway Portugal Spain Sweden Switzerland and United Kingdom

Foreword

The text of document 100B/110/FDIS future edition 2 of IEC 60503 prepared by SC 60B Video recording then by SC 100B Recording of IEC TC 100 Audio video and multimedia systems and equipment was submitted to the IEC CENELEC parallel vote and was approved by CENELEC as EN 60503 on 1998 04 01

The following dates were fixed

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1999 01 01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 2001 01 01

Annexes designated normative are part of the body of the standard
In this standard annex ZA is normative
Annex ZA has been added by CENELEC

Endorsement notice

The text of the International Standard IEC 60503 1998 was approved by CENELEC as a European Standard without any modification

SIST EN 60503:1999

<https://standards.iteh.ai/catalog/standards/sist/e3e719b9-379d-4b7e-b835-57ca96a1b405/sist-en-60503-1999>

Annex ZA (normative)**Normative references to international publications
with their corresponding European publications**

This European Standard incorporates by dated or undated reference provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references, the latest edition of the publication referred to applies (including amendments).

NOTE: When an international publication has been modified by common modifications indicated by (mod), the relevant EN/HD applies.

INTERNATIONAL ELECTROTECHNICAL COMMISSION

SPOOLS FOR BROADCAST VIDEOTAPE RECORDERS (VTRS)

FOREWORD

- 1) The IEC (International Electrotechnical Commission) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of the IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, the IEC publishes International Standards. Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. The IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of the IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested National Committees.
- 3) The documents produced have the form of recommendations for international use and are published in the form of standards, technical reports or guides and they are accepted by the National Committees in that sense.
- 4) In order to promote international unification, IEC National Committees undertake to apply IEC International Standards transparently to the maximum extent possible in their national and regional standards. Any divergence between the IEC Standard and the corresponding national or regional standard shall be clearly indicated in the latter.
- 5) The IEC provides no marking procedure to indicate its approval and cannot be rendered responsible for any equipment declared to be in conformity with one of its standards.
- 6) Attention is drawn to the possibility that some of the elements of this International Standard may be the subject of patent rights. The IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60503 has been prepared by subcommittee 60B: Video recording, then by subcommittee 100B: Recording, of IEC technical committee 100: Audio, video and multimedia systems and equipment.

This second edition cancels and replaces the first edition published in 1975.

The text of this standard is based on the following documents:

FDIS	Report on voting
100B/110/FDIS	100B/139/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.
