### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

#### IEC Catalogue - [webstore.iec.ch/catalogue](http://webstore.iec.ch/catalogue)

The stand-alone application for consulting the entire bibliographical information on IEC International Standards, Technical Specifications, Technical Reports and other documents. Available for PC, Mac OS, Android Tablets and iPad.

#### IEC publications search - [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and also once a month by email.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in 14 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

#### IEC Glossary - [std.iec.ch/glossary](http://std.iec.ch/glossary)

More than 55 000 electrotechnical terminology entries in English and French extracted from the Terms and Definitions clause of IEC publications issued since 2002. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

#### IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [csc@iec.ch](mailto:csc@iec.ch).

### A propos de l'IEC

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

### A propos des publications IEC

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

#### Catalogue IEC - [webstore.iec.ch/catalogue](http://webstore.iec.ch/catalogue)

Application autonome pour consulter tous les renseignements bibliographiques sur les Normes internationales, Spécifications techniques, Rapports techniques et autres documents de l'IEC. Disponible pour PC, Mac OS, tablettes Android et iPad.

#### Recherche de publications IEC - [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études,...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et aussi une fois par mois par email.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

Le premier dictionnaire en ligne de termes électroniques et électriques. Il contient plus de 30 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans 14 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

#### Glossaire IEC - [std.iec.ch/glossary](http://std.iec.ch/glossary)

Plus de 55 000 entrées terminologiques électrotechniques, en anglais et en français, extraites des articles Termes et Définitions des publications IEC parues depuis 2002. Plus certaines entrées antérieures extraites des publications des CE 37, 77, 86 et CISPR de l'IEC.

#### Service Clients - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: [csc@iec.ch](mailto:csc@iec.ch).

## FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC provides no marking procedure to indicate its approval and cannot be rendered responsible for any equipment declared to be in conformity with an IEC Publication.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60454-3-8 has been prepared by IEC technical committee 15: Insulating materials.

This bilingual version (2014-07) corresponds to the English version, published in 2006-02.

This third edition of IEC 60454-3-8 replaces the second edition, published in 1998, IEC 60454-3-9, published in 1998 and IEC 60454-3-13, published in 1995.

It represents a consolidation of the three, above-mentioned publications in which all requirements have now been confirmed.

The text of this standard is based on the following documents:

FDIS	Report on voting
15/264/FDIS	15/294/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

The French version of this standard has not been voted upon.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

The committee has decided that the contents of this publication will remain unchanged until the maintenance result date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed;
- withdrawn;
- replaced by a revised edition, or
- amended.

## iTeh STANDARD PREVIEW (standards.iteh.ai)

[IEC 60454-3-8:2006](#)

<https://standards.iteh.ai/catalog/standards/sist/fd6bef35-5747-4395-81f-2a38ec5e03ff/iec-60454-3-8-2006>

## INTRODUCTION

This International Standard is one of a series which deals with pressure-sensitive adhesive tapes, intended primarily for electrical purposes.

The series consists of three parts:

Part 1: General requirements (IEC 60454-1)

Part 2: Methods of test (IEC 60454-2)

Part 3: Specifications for individual materials (IEC 60454-3)

This standard contains one of the sheets comprising part 3 as follows:

Sheet 8:

– Woven fabric tapes with pressure-sensitive adhesive based on glass; cellulose acetate alone or combined with viscose fibre

## PRESSURE-SENSITIVE ADHESIVE TAPES FOR ELECTRICAL PURPOSES –

### Part 3: Specifications for individual materials – Sheet 8 – Woven fabric tapes with pressure-sensitive adhesive based on glass, cellulose acetate alone or combined with viscose fibre

#### 1 Scope

This sheet of IEC 60454-3 contains the requirements for

- glass fabric tapes with pressure-sensitive adhesive,
- cellulose acetate woven fabric tapes with rubber thermosetting adhesive,
- combined cellulose-viscose woven fabric tapes, one side covered with a thermoplastic material, the other side with thermosetting adhesive.

Materials which conform to this specification meet established levels of performance. However, the selection of a material by a user for a specific application should be based on the actual requirements necessary for adequate performance in that application, and not based on this specification alone.

#### 2 Normative references

<https://standards.iteh.ai/catalog/standards/sist/fd6bef35-5747-4395-81f1-2d3829c0311f/iec-60454-3-8-2006>

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

IEC 60426:1973, *Test methods for determining electrolytic corrosion with insulating materials*

IEC 60454-1:1992, *Specifications for pressure-sensitive adhesive tapes for electrical purposes – Part 1: General requirements*

IEC 60454-2:1994, *Specifications for pressure-sensitive adhesive tapes for electrical purposes – Part 2: Methods of test*

#### 3 Terms and definitions

For the purposes of this document, the definitions of IEC 60454-1 apply.

#### 4 Classification and designation

##### 4.1 Glass fabric tapes with pressure-sensitive adhesive

The products supplied according to this specification shall be classified as follows:

Type 1: Products having a thermal index of 130 with a rubber thermosetting adhesive.

Type 2: Products having a thermal index of 155 with an acrylic crosslinked adhesive.

Type 3: Products having a thermal index of 180 with a high temperature silicone adhesive.

The products shall be designated for ordering purposes as follows:

Type 1: IEC 60454-3-8-1/C-G/130/R-Tc

Type 2: IEC 60454-3-8-2/C-G/155/A-Tx

Type 3: IEC 60454-3-8-3/C-G/180/S-Tc

#### 4.2 Cellulose acetate woven fabric tapes with rubber thermosetting adhesive

The product shall be designated for ordering purposes as IEC 60454-3-8/C-CA/105/R-Tc.

#### 4.3 Combined cellulose-viscose woven fabric tapes

The product shall be designated for ordering purposes as IEC 60454-3-8/C-Cs/105/R-Tc.

## 5 Requirements

5.1 All applicable requirements of IEC 60454-1 shall apply to material furnished under this specification.

5.2 The electrical and other physical properties of products supplied according to this specification shall be within the limits listed in Table 1 when tested in accordance with the test methods listed therein.

#### 5.3 Thermal endurance (standards.iteh.ai)

##### 5.3.1 Glass fabric tapes with pressure sensitive adhesive

When required by the purchaser, the manufacturer shall provide evidence that when tested in accordance with Clause 21 of IEC 60454-2:1994, the product has a temperature index of not less than 130 for Type 1, 155 for Type 2 and 180 for Type 3. The exposure temperatures shall be 150 °C, 160 °C, and 180 °C for Type 1; 170 °C, 190 °C, and 210 °C for Type 2, and 200 °C, 225 °C, and 250 °C for Type 3.

The end-point criterion used shall be:

- for breakdown voltage: 1,0 kV (metal foil electrode).

##### 5.3.2 Cellulose acetate woven fabric tapes with rubber thermosetting adhesive

When required by the purchaser, the manufacturer shall provide evidence that when tested in accordance with Clause 21 of IEC 60454-2:1994, the product has a temperature index of not less than 105. The exposure temperatures shall be 120 °C, 130 °C and 155 °C.

The end-point criterion used shall be:

- for breakdown voltage: 1,5 kV (metal foil electrode).

##### 5.3.3 Combined cellulose-viscose woven fabric tapes

When required by the purchaser, the manufacturer shall provide evidence that when tested in accordance with Clause 21 of IEC 60454-2:1994, the product has a temperature index of not less than 105. The exposure temperatures shall be 120 °C, 130 °C and 140 °C.

The end-point criteria used shall be:

- for breakdown voltage: 1,0 kV (metal foil electrode); and
- for loss of mass: 20 %.

## **6 Test methods**

All tests shall be conducted in accordance with the appropriate clauses and sub clauses of IEC 60454-2.

## **7 Marking, labelling and packaging**

Unless otherwise specified, all marking, labelling and packaging shall be in accordance with the requirements of IEC 60454-1.

**iTeh STANDARD PREVIEW**
