About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

IEC Catalogue - webstore.iec.ch/catalogue

The stand-alone application for consulting the entire bibliographical information on IEC International Standards, Technical Specifications, Technical Reports and other documents. Available for PC, Mac OS, Android Tablets and iPad.

IEC publications search - www.iec.ch/searchpub

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and also once a month by email.

Electropedia - www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in 14 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

IEC Glossary - std.iec.ch/glossary

More than 55 000 electrotechnical terminology entries in English and French extracted from the Terms and Definitions clause of IEC publications issued since 2002. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

IEC Customer Service Centre - webstore.iec.ch/csc

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: csc@iec.ch.

A propos de l'IEC

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

A propos des publications IEC

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

Catalogue IEC - webstore.iec.ch/catalogue

Application autonome pour consulter tous les renseignements bibliographiques sur les Normes internationales, Spécifications techniques, Rapports techniques et autres documents de l'IEC. Disponible pour PC, Mac OS, tablettes Android et iPad.

Recherche de publications IEC - www.iec.ch/searchpub

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études,...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

IEC Just Published - webstore.iec.ch/justpublished

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et aussi une fois par mois par email.

Electropedia - www.electropedia.org

Le premier dictionnaire en ligne de termes électroniques et électriques. Il contient plus de 30 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans 14 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

Glossaire IEC - std.iec.ch/glossary

Plus de 55 000 entrées terminologiques électrotechniques, en anglais et en français, extraites des articles Termes et Définitions des publications IEC parues depuis 2002. Plus certaines entrées antérieures extraites des publications des CE 37, 77, 86 et CISPR de l'IEC.

Service Clients - webstore.iec.ch/csc

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC provides no marking procedure to indicate its approval and cannot be rendered responsible for any equipment declared to be in conformity with an IEC Publication.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60454-3-2 has been prepared by IEC technical committee 15: Insulating materials.

This bilingual version (2014-05) corresponds to the English version, published in 2006-01.

This third edition of IEC 60454-3-2 replaces the second edition, published in 1998, and includes its consolidation with the text of IEC 60464-3-3 (1998). It constitutes a technical revision.

The text of this standard is based on the following documents:

| FDIS | Report on voting |
|-------------|------------------|
| 15/251/FDIS | 15/278/RVD |

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

The French version of this standard has not been voted upon.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

The committee has decided that the contents of this publication will remain unchanged until the maintenance result date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed;
- withdrawn;
- replaced by a revised edition, or
- amended.

iTeh STANDARD PREVIEW **(standards.iteh.ai)**

[IEC 60454-3-2:2006](#)

<https://standards.iteh.ai/catalog/standards/sist/ad92cd59-a54e-47ec-adcc-1ace18c7bae8/iec-60454-3-2-2006>

INTRODUCTION

This International Standard is one of a series which deals with pressure-sensitive adhesive tapes, intended primarily for electrical purposes.

The series consists of three parts:

- Part 1: General requirements (IEC 60454-1)
- Part 2: Methods of test (IEC 60454-2)
- Part 3: Specifications for individual materials (IEC 60454-3)

This standard contains one of the sheets comprising part 3 as follows:

Sheet 2:

Requirements for polyester film tapes with rubber thermosetting, rubber thermoplastic or acrylic crosslinked adhesives

SAFETY WARNING

It is the responsibility of the user of the methods contained or referred to in this standard to ensure that they are used in a safe manner.

PRESSURE-SENSITIVE ADHESIVE TAPES FOR ELECTRICAL PURPOSES –

Part 3: Specifications for individual materials – Sheet 2: Requirements for polyester film tapes with rubber thermosetting, rubber thermoplastic or acrylic crosslinked adhesives

1 Scope

This sheet of IEC 60454-3 contains the requirements for:

Polyester film tapes with rubber thermosetting, rubber thermoplastic or acrylic crosslinked adhesives.

Materials which conform to this specification meet established levels of performance. However, the selection of a material by a user for a specific application should be based on the actual requirements necessary for adequate performance in that application, and not based on this specification alone.

iTech STANDARD PREVIEW

2 Normative references (standards.iteh.ai)

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

IEC 60426:1973, *Test methods for determining electrolytic corrosion with insulating materials*

IEC 60454-1:1992, *Specification for pressure-sensitive adhesive tapes for electrical purposes – Part 1: General requirements*

IEC 60454-2:1994, *Specification for pressure-sensitive adhesive tapes for electrical purposes – Part 2: Methods of test*

3 Terms and definitions

For the purposes of this document, the definitions of IEC 60454-1 apply.

4 Classification and designation

4.1 Polyester film tapes with rubber thermosetting, rubber thermoplastic or acrylic crosslinked adhesives

4.1.1 The products supplied according to this specification shall be classified as follows:

Type 1: Products having properties characteristic of a polyester film of nominal thickness 0,020 mm – 0,030 mm preferably 0,023 mm (23 μm) with a rubber thermosetting adhesive.

- Type 2: Products having properties characteristic of a polyester film of nominal thickness 0,020 mm – 0,030 mm preferably 0,023 mm (23 µm) with an acrylic crosslinked adhesive.
- Type 3: Products having properties characteristic of a polyester film of nominal thickness 0,020 mm – 0,030 mm preferably 0,023 mm (23 µm) with a flame retardant acrylic crosslinked adhesive.
- Type 4: Products having properties characteristic of a polyester film of nominal thickness 0,045 mm – 0,055 mm preferably 0,050 mm (50 µm) with a rubber thermosetting adhesive.
- Type 5: Products having properties characteristic of a polyester film of nominal thickness 0,045 mm – 0,055 mm preferably 0,050 mm (50 µm) with an acrylic crosslinked adhesive.
- Type 6: Products having properties characteristic of a polyester film of nominal thickness 0,045 mm – 0,055 mm preferably 0,050 mm (50 µm) with a flame retardant acrylic crosslinked adhesive.
- Type 7: Products having properties characteristic of a polyester film of nominal thickness 0,020 mm – 0,030 mm preferably 0,023 mm (23 µm) with a rubber thermoplastic adhesive.
- Type 8: Products having properties characteristic of a polyester film of nominal thickness 0,045 mm – 0,055 mm preferably 0,050 mm (50 µm) with a rubber thermoplastic adhesive.

4.1.2 The products shall be designated for ordering purposes as follows:

- Type 1: IEC 60454-3-2-1/F-PET/130/R-Tc
- Type 2: IEC 60454-3-2-2/F-PET/130/A-Tx
- Type 3: IEC 60454-3-2-3/F-PET/130/A-Tx
- Type 4: IEC 60454-3-2-4/F-PET/130/R-Tc
- Type 5: IEC 60454-3-2-5/F-PET/130/A-Tx
- Type 6: IEC 60454-3-2-6/F-PET/130/A-Tx
- Type 7: IEC 60454-3-2-7/F-PET/130/R-Tp
- Type 8: IEC 60454-3-2-8/F-PET/130/R-Tp

5 Requirements

All applicable requirements of IEC 60454-1 shall apply to material furnished under this specification.

5.1 The physical and electrical properties of products supplied according to this specification shall be within the limits listed in Tables 1 and 2 when tested in accordance with the test methods listed therein.

5.2 Thermal endurance

Polyester film tapes with rubber thermosetting, rubber thermoplastic or acrylic crosslinked adhesives:

When required by the purchaser, the manufacturer shall provide evidence that when tested in accordance with Clause 21 of IEC 60454-2, the product has a temperature index of not less than 130 °C . The exposure temperatures are 150 °C, 160 °C and 180 °C .

The end-point criterion used shall be:

- breakdown voltage: 2,2 kV for types 1,2,3 and 7 (metal foil electrode).
- breakdown voltage: 3,5 kV for types 4,5,6 and 8 (metal foil electrode).

6 Test methods

All tests shall be conducted in accordance with the appropriate clauses and subclauses of IEC 60454-2.

7 Marking, labelling and packaging

Unless otherwise specified, all marking, labelling and packaging shall be in accordance with the requirements of IEC 60454-1.

Table 1 – Requirements for all types

Sheet 2: Polyester film tapes with rubber thermosetting, thermoplastic or acrylic crosslinked adhesives

| Property | Clause or subclause of IEC 60454-2 | Units | Requirements |
|--|------------------------------------|----------------------|--|
| Thickness | 4 | mm | Nominal value per manufacturer $\pm 0,01$ mm or ± 15 %, whichever is greater |
| Width | 5 | mm | 7.2.1 of IEC 60454-1 |
| Length | 6 | m | 7.3 of IEC 60454-1 |
| Electrolytic corrosion | 7.5 | $\Omega/25$ mm width | 1×10^{11} minimum |
| – insulation resistance after 24 h at (23 ± 2) °C and (93 ± 2) % relative humidity; or | 7.5 | | |
| – visual method | 7.6 | None | Grade shall be at least as good as A 1,4 (see Table 1 of IEC 60426) |
| Elongation at break | 8 | % | 50 minimum |
| Flagging test | 15 Condition per 15.5.2 | mm | 2 maximum |
| Thermal endurance | 21 | | See 5.3 |

Table 2 – Requirements for various types

Sheet 2: Polyester film tapes with rubber thermosetting, thermoplastic or acrylic crosslinked adhesives

| Property | Clause or subclause of IEC 60454-2 | Units | Type 1 | Type 2 | Type 3 | Type 4 | Type 5 | Type 6 | Type 7 | Type 8 |
|--|---|--------------|-------------|-------------|----------------------------|-------------|-------------|----------------------------|-------------|-------------|
| Tensile strength | 8 | N/10mm width | 35 minimum | 35 minimum | 35 minimum | 70 minimum | 70 minimum | 70 minimum | 35 minimum | 70 minimum |
| Adhesion to steel | 11 | N/10mm width | 2,0 minimum | 2,0 minimum | 2,0 minimum | 3,0 minimum | 3,0 minimum | 3,0 minimum | 2,0 minimum | 3,0 minimum |
| Bond separation during thermal treatment | 14.1 except use (200+5) g mass and test at 130 °C | | --- | 3 passes | 3 passes | --- | 3 passes | 3 passes | n.a | n.a |
| Bond separation after thermal treatment | 14.2 | | 3 passes | --- | --- | 3 passes | --- | --- | n.a | n.a |
| Breakdown voltage | | | | | | | | | | |
| - at room temperature | 17 | kV | 4,0 minimum | 4,0 minimum | 4,0 minimum | 6,5 minimum | 6,5 minimum | 6,5 minimum | 4,0 minimum | 6,5 minimum |
| - after humid conditioning | 18 | kV | 4,0 minimum | 4,0 minimum | 4,0 minimum | 6,5 minimum | 6,5 minimum | 6,5 minimum | 4,0 minimum | 6,5 minimum |
| Flame test | 20 | | --- | --- | Flame Retardant (see Note) | --- | --- | Flame Retardant (see Note) | | |

NOTE The criteria for flame retardant is described in 20.1 of IEC 60454-2.
