iTeh STANDARD PREVIEW
(standards.iteh.ai)

This amendment A1 modifies the European Standard EN 60335-2-65:1995; it was approved by CENELEC on 2000-11-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of document 61/1876/FDIS, future amendment to IEC 60335-2-65:1993 prepared by the IEC Technical Committee 61, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as amendment A1 to EN 60335-2-65:1995 on 2000-11-01.

The following dates are applicable:

- latest date by which the amendment has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2001-08-01
- date on which national standards conflicting with the amendment have to be withdrawn (dow) 2003-11-01

This amendment supplements or modifies the corresponding clauses of EN 60335-2-65:1995.

There are no special national conditions causing a deviation from this amendment.

There are no national deviations from this amendment.

iTeh STANDARD PREVIEW (standards.itteh.ai)

An investigation by CENELEC TC 61 has shown that all risks from products within the scope of this standard are fully covered by the Low Voltage Directive, 73/23/EEC. If the product has mechanical moving parts, a risk assessment in accordance with the Machinery Directive, 89/392/EEC, has shown that the risks are mainly of electrical origin and consequently this directive is not applicable. However, the relevant essential safety requirements of the Machinery Directive are covered by this standard together with the principal objectives of the Low Voltage Directive.

Endorsement notice

The text of amendment 1:2000 to the International Standard IEC 60335-2-65:1993 was approved by CENELEC as an amendment to the European Standard without any modification.

FOREWORD

This amendment has been prepared by IEC technical committee 61: Safety of household and similar electrical appliances.

The text of this amendment is based on the following documents:

FDIS	Report on voting
61/1876/FDIS	61/1895/RVD

Full information on the voting for the approval of this amendment can be found in the report on voting indicated in the above table.

A bilingual version of this amendment may be issued at a later date.

22 Construction iTeh STANDARD PREVIEW

Add the following subclause: (standards.iteh.ai)

22.102 Interlock switches which ~~prevent access to live parts~~ during **user maintenance** shall be connected in the input circuit and located to prevent unintentional operation.

<https://standards.iteh.ai/catalog/standards/sist/e8499c40e255/sist-en-60335-2-65-1997-a1-2002>

Compliance is checked by inspection and by applying the test finger of figure 1.

24 Components

24.101 *Replace the text by:*

Interlock switches which prevent access to **live parts** during **user maintenance** shall

- disconnect all poles unless the secondary circuit is supplied through an isolating transformer;
- have a contact separation which provides full disconnection in accordance with IEC 61058-1.

Compliance is checked by inspection and by measurement.
