Tool shanks taper rate 7/24 for automatic tool changer – Part 1 : Shanks Nos. 40, 45 and 50 – Dimensions

ADDENDUM 1 : Conicity tolerances

*Queues d'outils à conicité 7/24 pour changement automatique d'outils – Partie 1 : Cônes nos 40, 45 et 50 – Dimensions
ADDITIF 1 : Tolérances de conicité*

Addendum 1 to International Standard ISO 7388/1-1983 was developed by Technical Committee ISO/TC 39, *Machine tools*.

1 Scope and field of application

This addendum lays down the quality of conicity tolerances of shanks Nos. 40, 45 and 50.

2 Reference

[ISO 7388-1:1983/Add 1:1984](#)

<https://standards.iteh.ai/catalog/standards/sist/9b5bf403-8bcb-4049-b86f>
ISO 1947, *System of cone tolerances for conical workpieces from C = 1:3 to 1:500 and lengths from 6 to 630 mm.*

3 Conicity tolerances

The values shall be the same as those given in AT4 quality, indicated in table 8 of ISO 1947.

These values shall all be positive.
