Annex ZB
(normative)

Special national conditions

Special national condition: National characteristic or practice that cannot be changed even over a long period, e.g. climatic conditions, electrical earthing conditions. If it affects harmonization, it forms part of the European Standard or Harmonization Document.

For the countries in which the relevant special national apply these provisions are normative, for other countries they are informative.

<u>Clause</u>	<u>Special national condition</u>
7.4	Belgium With the exception of fixed surface-type indicator light units IPX4 and fixed surface-type indicator light units IPX5, design B is not used due to installation practice.
10.2.2	Denmark, Finland Add after the first paragraph: Due to the lack of an earthing conductor in many existing old buildings, accessories requiring earth connection cannot normally be used.
