Foreword

This amendment was prepared by the Technical Committee CENELEC TC 20, Electric cables, and agreed at the Frankfurt meeting (May 2003).

This amendment has been prepared for urgent health and safety reasons.

The text of the draft was submitted to the Unique Acceptance Procedure and was approved by CENELEC as amendment A4 to HD 605 S1:1994 on 2004-04-01.

The following dates were fixed:

-	latest date by which the existence of the amendment has to be announced at national level	(doa) 2004-10-01
-	latest date by which the amendment has to be implemented at national level by publication of a harmonised national standard or by endorsement	(dop) 2005-04-01
_	latest date by which the national standards conflicting with the amendment have to be withdrawn	(dow) 2005-04-01

5.4.15 Harmonised long duration test (as introduced in HD 605 S1:1994/A3:2002)

5.4.15.3.2 Conditioning

Number the existing note as Note 1 and add a new Note 2 as follows :

NOTE 2 The water used for conditioning and for the lageing test may contain a number of legionella bacteria per unit of volume. These may grow above the level allowed by relevant national regulations and laws, resulting in serious contamination of the water. It is advised that the level of legionella bacteria in the water is regularly checked and appropriate action taken to reduce the level when it exceeds the level allowed. Possible methods to control the level without affecting the conditioning or the ageing are under consideration.
