About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: www.iec.ch/searchpub

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: www.iec.ch/online_news/justpub

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

CONTENTS

FOREWORD.....	4
1 Scope.....	6
2 Normative references	6
3 Materials and construction.....	6
3.1 Reinforcement.....	6
3.2 Resin system.....	7
4 Properties.....	7
4.1 Properties related to the appearance of the prepreg	7
4.1.1 Dewetted areas (fish eyes).....	7
4.1.2 Broken filaments.....	7
4.1.3 Distortion.....	7
4.1.4 Creases.....	7
4.1.5 Edge conditions.....	7
4.2 Properties related to B-stage prepreg.....	8
4.2.1 Resin content	8
4.2.2 Treated weight.....	8
4.2.3 Resin flow	8
4.2.4 Scaled flow thickness	8
4.2.5 Melting viscosity	9
4.2.6 Gel time.....	9
4.2.7 Volatile content.....	9
4.3 Properties related to prepreg after curing	9
4.3.1 Electric strength	9
4.3.2 Flammability	9
4.3.3 Relative permittivity and dissipation factor	10
4.3.4 Cured thickness.....	10
4.3.5 Glass transition temperature (T _g)	10
4.3.6 Decomposition temperature (T _d).....	10
4.3.7 Thermal resistance.....	10
4.3.8 Z-axis expansion	10
5 Delivery form.....	11
5.1 Rolls.....	11
5.2 Sheets.....	11
5.3 Cut panels.....	11
6 Quality assurance.....	11
6.1 Quality system.....	11
6.2 Responsibility for inspection	11
6.3 Qualification inspection	11
6.4 Quality conformance inspection.....	12
6.5 Certificate of conformance.....	12
6.6 Safety data sheet	12
7 Packaging and marking	12
8 Shelf life.....	12
9 Ordering information.....	13
Bibliography.....	14

Table 1 – Flammability, vertical burning test	9
Table 2 – Decomposition temperature requirements	10
Table 3 – Thermal resistance requirements	10

unclad (for the manufacture of multilayer boards) –
Multifunctional non-halogenated epoxide woven E-glass prepreg
of defined flammability (vertical burning test) for lead-free assembly**

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC provides no marking procedure to indicate its approval and cannot be rendered responsible for any equipment declared to be in conformity with an IEC Publication.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 61249-4-16 has been prepared by IEC technical committee 91: Electronics assembly technology.

The text of this standard is based on the following documents:

FDIS	Report on voting
91/852/FDIS	91/864/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.
