IEC 61850-8-1

Edition 2.1 2020-02
CONSOLIDATED VERSION

INTERNATIONAL STANDARD

NORME INTERNATIONALE

Communication networks and systems for power utility automation –
Part 8-1: Specific communication service mapping (SCSM) – Mappings to MMS (ISO 9506-1 and ISO 9506-2) and to ISO/IEC 8802-3

Réseaux et systèmes de communication pour l'automatisation des systèmes électriques –
Partie 8-1: Mise en correspondance des services de communication spécifiques (SCSM) – Mises en correspondance pour MMS (ISO 9506-1 et ISO 9506-2) et pour l'ISO/IEC 8802-3

About the IEC
The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications
The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

IEC publications search - webstore.iec.ch/advsearchform
The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,…). It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished
Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

IEC Customer Service Centre - webstore.iec.ch/csc
If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: sales@iec.ch.

Electropedia - www.electropedia.org
The world's leading online dictionary on electrotechnology, containing more than 22 000 terminological entries in English and French, with equivalent terms in 16 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

IEC Glossary - std.iec.ch/glossary
67 000 electrotechnical terminology entries in English and French extracted from the Terms and definitions clause of IEC publications issued between 2002 and 2015. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

A propos de l'IEC
La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

A propos des publications IEC
Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

Recherche de publications IEC - webstore.iec.ch/advsearchform
La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études,…). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

IEC Just Published - webstore.iec.ch/justpublished
Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et une fois par mois par email.

Service Clients - webstore.iec.ch/csc
Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: sales@iec.ch.

Electropedia - www.electropedia.org
Le premier dictionnaire d'électrotechnologie en ligne au monde, avec plus de 22 000 articles terminologiques en anglais et en français, ainsi que les termes équivalents dans 16 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

Glossaire IEC - std.iec.ch/glossary
67 000 entrées terminologiques électrotechniques, en anglais et en français, extraites des articles Termes et définitions des publications IEC parues entre 2002 et 2015. Plus certaines entrées antérieures extraites des publications des CE 37, 77, 86 et CISPR de l'IEC.

CONTENTS

FOREWORD 12
INTRODUCTION 15
1 Scope 16
1.1 General 16
1.2 Namespace name and version 16
1.3 Code Component distribution 17
2 Normative references 18
3 Terms and definitions 22
4 Abbreviations 24
5 Overview 26
5.1 General 26
5.2 MMS communication profiles 27
5.3 Non-MMS communication profiles 27
5.4 MMS objects being used 28
6 Communication stack 28
6.1 Overview of the protocol usage 28
6.2 Client/server services and communication profiles 29
6.2.1 Client/server services 29
6.2.2 A-Profile 31
6.2.3 TCP/IP T-Profile 33
6.3 GSE management and GOOSE services communication profiles 34
6.3.1 GSE mapping overview 34
6.3.2 A-Profile 34
6.3.3 T-Profile 35
6.4 Time sync 36
6.4.1 Conformance statement 36
6.4.2 A-Profile 37
6.4.3 T-Profile 37
6.5 Sampled value management and Sampled value services communication profiles 38
6.5.1 Sampled value mapping overview 38
6.5.2 A-Profile 38
6.5.3 T-Profile 39
7 Objects of IEC 61850 41
7.1 Server 41
7.2 Logical device (LD) 41
7.3 Logical node (LN) 41
7.3.1 General 41
7.3.2 Mapping of LNReference to VariableAccessSpecifications 44
7.3.3 Mapping of DataObjects reference to VariableAccessSpecifications 44
7.3.4 Mapping of DataAttributes (DataAttr) reference to VariableAccessSpecifications 44
8 Mapping of IEC 61850-7-2 data attributes 45
8.1 Mapping of Attributes specified in IEC 61850-7-2 45
8.1.1 BasicTypes 45
8.1.2 Additional definitions of BasicType 45

8.1.3 Common ACSITypes 47
8.2 Mapping of quality common data attribute type specified in IEC 61850-7-2 68
9 Server class model 69
9.1 Server mapping 69
9.2 Server class attributes 69
9.2.1 ServiceAccessPoint 69
9.2.2 Logical devices 70
9.2.3 Files 70
9.2.4 Client associations 70
9.3 Server class service GetServerDirectory 70
10 Association model 72
10.1 Association relation to communication profiles 72
10.2 Two party association model for client/server communication profile 72
10.2.1 Association mapping 72
10.2.2 Association services 73
10.3 Two party association model for GSE management communication profile 74
10.4 Two party association model for time sync 74
10.5 Multicast association model 74
11 Logical device model 74
12 Logical node model 74
12.1 GenLogicalNodeClass 74
12.2 GenLogicalNodeClass attributes 74
12.3 GenLogicalNodeClass services 75
12.3.1 GetLogicalNodeDirectory 75
12.3.2 GetAllDataValues 76
13 DataObject, DataAttribute, SubDataAttribute model 77
13.1 GenDataObjectClass 77
13.2 GenDataAttributeClass 77
13.3 GenSubDataAttributeClass 77
13.4 GenDataObjectClass services 78
13.4.1 GetDataValues 78
13.4.2 SetDataValues 78
13.4.3 GetDataDirectory 79
13.4.4 GetDataDefinition 79
14 Data set class model 79
14.1 Data set class 79
14.2 Data set attributes 79
14.3 Data set services 79
14.3.1 GetDataSetValues 79
14.3.2 SetDataSetValues 80
14.3.3 CreateDataSet 80
14.3.4 DeleteDataSet 81
14.3.5 GetDataSetDirectory 81
15 ServiceTracking model 82
15.1 General 82
15.2 Common Service Tracking – CST 82
15.3 Mapping of the Buffered Report Tracking Service – BTS 84
15.4 Mapping of the Unbuffered Report Tracking Service – UTS 85

15.5 Mapping of the Log Control Block Tracking Service Tracking – LTS 85
15.6 Mapping of the Log Tracking Service – OTS 86
15.7 Mapping of the GOOSE Control Block Tracking Service – GTS 86
15.8 Mapping of the Setting Group Control Block Tracking Service – STS 87
15.9 Mapping of the tracking service for MSVCB control block – MTS 87
15.10 Mapping of the tracking service of the deprecated USVCB control block – NTS 87
16 Setting group control class model 88
16.1 Setting group control block definition 88
16.2 Setting group control class services 88
16.2.1 SelectActiveSG 88
16.2.2 SelectEditSG 88
16.2.3 SetEditSGValue 89
16.2.4 ConfirmEditSGValues 89
16.2.5 GetEditSGValue 89
16.2.6 GetSGCBValues 89
17 Reporting and logging class model 89
17.1 Report model – Report control blocks 89
17.1.1 Functional Constraint for Report Control Blocks 89
17.1.2 Buffered report control block 89
17.1.3 Unbuffered report control block 91
17.2 Reporting services 93
17.2.1 Report service 93
17.2.2 GetBRCBValues 95
17.2.3 SetBRCBValues 95
17.2.4 GetURCBValues 95
17.2.5 SetURCBValues 95
17.3 Log model 95
17.3.1 General 95
17.3.2 Mapping of log control class 95
17.3.3 Mapping of log class 95
17.3.4 Mapping of log and log control services 100
17.3.5 Conformance 102
18 Mapping of the generic substation event model (GSE) 102
18.1 Generic object oriented substation event (GOOSE) 102
18.1.1 GOOSE control definition 102
18.1.2 GOOSE services 104
19 Transmission of sampled values class model 112
19.1 Sampled value 112
19.1.1 Sampled value control block 112
19.1.2 Sampled value services 113
20 Control class model 117
20.1 General 117
20.2 Control service parameters 117
20.3 Mapping of control objects and CO_CtrlObjectRef 118
20.4 Mapping of control services 120
20.5 Select 120
20.5.1 Select service parameter mapping 120

20.8.3 Operate request 127
20.8.4 Operate response+ 127
20.8.5 Operate response– 128
20.9 CommandTermination 128
20.9.1 CommandTermination service parameter mapping 128
20.9.2 Mapping of the CommandTermination service 128
20.10 TimeActivatedOperate 129
20.10.1 TimeActivatedOperate service parameter mapping 129
20.10.2 Mapping of the TimeActivatedOperate service 129
20.10.3 Mapping of the TimeActivatedOperateTermination service 131
20.11 AdditionalCauseDiagnosis in negative control service responses 132
20.12 Tracking of control services 134
20.12.1 General 134
20.12.2 Mapping of the Control service tracking (CTS) 134
21 Time and time synchronization model 135
22 Naming conventions 135
23 File transfer 135
23.1 File transfer model 135
23.2 File services 137
23.2.1 GetFile 137
23.2.2 SetFile 140
23.2.3 DeleteFile 141
23.2.4 GetFileAttributeValues 141
24 Conformance 142
24.1 Notation 142
24.2 PICS 142
24.2.1 Profile conformance 142
24.2.2 MMS conformance 144
24.3 PICS Statement 163

INTERNATIONAL ELECTROTECHNICAL COMMISSION

_____

COMMUNICATION NETWORKS AND SYSTEMS FOR POWER UTILITY AUTOMATION –

Part 8-1: Specific communication service mapping (SCSM) – Mappings to MMS (ISO 9506-1 and ISO 9506-2) and to ISO/IEC 8802-3

FOREWORD

1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
6) All users should ensure that they have the latest edition of this publication.
7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

IEC 61850-8-1:2011

This consolidated version of the official IEC Standard and its amendment has been prepared for user convenience.

IEC 61850-8-1 edition 2.1 contains the second edition (2011-06) [documents 57/2150/FDIS and 57/2168/RVD] and its amendment 1 (2020-02) [documents 57/2150/FDIS and 57/2168/RVD].
