## Adhesives for tiles - Determination of wetting capability

Colles à carrelage - Détermination du pouvoir mouillant

Mörtel und Klebstoffe für Fliesen und Platten - Bestimmung der Benetzungsfähigkeit

This amendment A1 modifies the European Standard EN 1347:1996; it was approved by CEN on 4 September 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for inclusion of this amendment into the relevant national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

EUROPEAN COMMITTEE FOR STANDARDIZATION  
COMITÉ EUROPÉEN DE NORMALISATION  
EUROPÄISCHES KOMITEE FÜR NORMUNG

Central Secretariat: rue de Stassart, 36 B-1050 Brussels

## Foreword

This Amendment EN 1347:1996/A1:1998 to the EN 1347:1996 has been prepared by Technical Committee CEN/TC 67 "Ceramic tiles", the secretariat of which is held by UNI.

This Standard is one of the series of standards for tests on tile adhesives including:

|              |  |
|--------------|--|
| EN 1308      | Adhesives for tiles - Determination of slip  |
| EN 1323      | Adhesives for tiles - Concrete slab for test   |
| EN 1324      | Adhesives for tiles - Determination of shear adhesion strength of dispersion adhesives                 |
| EN 1346      | Adhesives for tiles - Determination of open time   |
| EN 1347      | Adhesives for tiles - Determination of wetting capability  |
| EN 1348      | Adhesives for tiles - Determination of tensile adhesion strength for cementitious adhesives            |
| EN 12002     | Adhesives for tiles - Determination of transverse deformation for cementitious adhesives and grouts    |
| EN 12003     | Adhesives for tiles - Determination of shear adhesion strength of reaction resin adhesives             |
| prEN 12808-1 | Adhesive and grouts for tiles - Part 1: Determination of chemical resistance of reaction resin mortars |

It is intended that other ENs should call up EN 1347 test methods as the basis of evaluation of conformity. Nevertheless it is not intended that all adhesives for tiles should be subjected regularly to all the listed tests. Specifications in other standards should call up only relevant test methods.

No existing European Standard is superseded.

This Amendment to the European Standard EN 1347:1996 shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by March 1999 and conflicting national standards shall be withdrawn at the latest by March 1999.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Amendment to the English version

| Clauses of existing EN 1347:1996 | Text of EN 1347 as modified by this A1:1998  |
|----------------------------------|--|
| <b>Foreword</b>                  | Substitute the existing text with the one annexed to this amendment  |
| <b>1 Scope, note</b>             | Note " Ceramic tile adhesives may also be used for other types of tiles ( natural and agglomerated stones, etc), <u>where these do not adversely affect the stones</u> " |
| <b>5.1 , First line</b>          | " <u>Condition all test materials ( adhesive, etc ) for at least 24 h under .....</u> "  |
| <b>6, 7th line</b>               | " <u>Carry out the following procedure</u> "   |
