This European Standard was approved by CEN on 28 October 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

## Foreword

This European Standard (EN 2605:2005) has been prepared by the European Association of Aerospace Manufacturers - Standardization (AECMA-STAN).

After enquiries and votes carried out in accordance with the rules of this Association, this Standard has received the approval of the National Associations and the Official Services of the member countries of AECMA, prior to its presentation to CEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 2006, and conflicting national standards shall be withdrawn at the latest by June 2006.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

SIST EN 2605:2006

<https://standards.iteh.ai/catalog/standards/sist/4da6038c-a8be-4ddc-aff2-4c3f161e0696/sist-en-2605-2006>

## 1 Scope

This standard specifies the dimensional characteristics of the 24° interface for adaptors, threaded, with locking, assembly with elastomer O-ring, for aerospace applications.

This standard applies to all adaptors, threaded, with locking, assembled with EN 2607 to EN 2608 and used in hydraulic systems with a nominal pressure up to 28 000 kPa for which a metric-size coupling with a 24° conical sealing surface has been selected.

## 2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

ISO 5855-1, *Aerospace — MJ threads — Part 1: General requirements*

ISO 5855-3, *Aerospace — MJ threads — Part 3: Limit dimensions for fluid systems*

ISO 7321, *Aerospace — Fluid systems — Geometrical configuration of 24° tube fitting — Metric series*

EN 2602, *Aerospace series — Ports for adaptors, threaded, with locking — Geometric configuration*

EN 2603, *Aerospace series — Port ends for adaptors, threaded, with locking — Geometric configuration*

EN 2607, *Aerospace series — O-rings for adaptors, threaded, with locking — Survey*

EN 2645, *Aerospace series — Lockrings for adaptors, threaded, with locking — Dimensions*

## 3 Required characteristics

### 3.1 Configuration — Dimensions

Inside dimensions in compliance with ISO 7321.

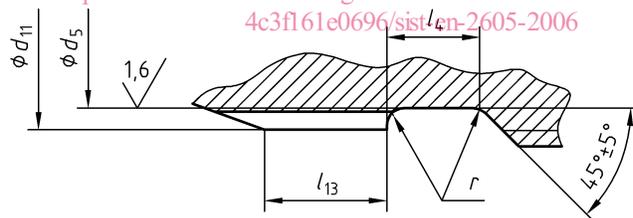

Dimensions in Millimetres
