This amendment A1 modifies the European Standard EN 60371-3-6:1995; it was approved by CENELEC on 2006-10-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

## Foreword

The text of document 15/333/FDIS, future amendment 1 to IEC 60371-3-6:1992, prepared by IEC TC 15, Standards on specifications for electrical insulating materials, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as amendment A1 to EN 60371-3-6:1995 on 2006-10-01.

The following dates were fixed:

- latest date by which the amendment has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2007-07-01
- latest date by which the national standards conflicting with the amendment have to be withdrawn (dow) 2009-10-01

---

## Endorsement notice

The text of amendment 1:2006 to the International Standard IEC 60371-3-6:1992 was approved by CENELEC as an amendment to the European Standard without any modification.

## FOREWORD

This amendment has been prepared by IEC technical committee 15: Standards on specifications for electrical insulating materials.

The text of this amendment is based on the following documents:

FDIS	Report on voting
15/333/FDIS	15/348/RVD

Full information on the voting for the approval of this amendment can be found in the report on voting indicated in the above table.

The committee has decided that the contents of this amendment and the base publication will remain unchanged until the maintenance result date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

## iTeh STANDARD PREVIEW (standards.iteh.ai)

[SIST EN 60371-3-6:1998/A1:2007  
https://standards.iteh.ai/catalog/standards/sist/49d29182-0f19-4c0b-b75b-8b6ebc82db4b/sist-en-60371-3-6-1998-a1-2007](https://standards.iteh.ai/catalog/standards/sist/49d29182-0f19-4c0b-b75b-8b6ebc82db4b/sist-en-60371-3-6-1998-a1-2007)

### INTRODUCTION

*Replace the existing text by the following new text:*

This International Standard is one of a series which deals with insulating materials for use in electrical equipment built up from mica splittings or mica paper, with or without reinforcement, and with mica paper in its pure state.

The series consists of the following three parts:

- Part 1: Definitions and general requirements (IEC 60371-1)
- Part 2: Methods of test (IEC 60371-2)
- Part 3: Specifications for individual materials (IEC 60371-3)

This standard contains one of the sheets comprising part 3, as follows:

Sheet 6: Glass-backed mica paper with a B-stage epoxy resin binder.

Page 9

## 1 Scope

*Insert the following two paragraphs after the existing paragraphs:*

Materials which conform to this specification meet established levels of performance. However, the selection of materials by a user for a specific application should be based on the actual requirements necessary for adequate performance in that application and not based on this specification alone.

### **Safety warning:**

It is the responsibility of the user of the methods contained or referred to in this document to ensure that they are used in a safe manner.

## 2 Normative references

*Replace the existing references by the following:*

IEC 60243-1:1998, *Electric strength of insulating materials – Test methods – Part 1: Tests at power frequencies*

IEC 60371-2:2004, *Specification for insulating materials based on mica – Part 2: Methods of test*

IEC 60371-3-2:2005, *Insulating materials based on mica – Part 3: Specifications for individual materials – Sheet 2 Mica paper* <http://standards.iteh.ai/catalog/standards/sist/49d29182-0f19-4c0b-b75b-8b6cbc82db4b/sist-en-60371-3-6-1998-a1-2007>

## 3 Designation

*Replace the existing first two paragraphs by the following new paragraphs:*

When ordering materials to this specification, only the specification and type numbers need be quoted (see Table 1).

*Example:* IEC 60371-3-6: type 6.1.01

The type number is derived from:

- |  |    |
|--|----|
| – the specification sheet number                           | 6  |
| – followed by the sheet table number                       | 1  |
| – followed by the number of the product in the sheet table | 01 |

Thus giving type number 6.1.01.

*The final paragraph and note remain unchanged.*
