English Version

Aerospace series - Screws, reduced pan head, offset cruciform recess, relieved shank, long thread, in heat resisting steel FE-PA92HT (A286), silver plated - Classification: 900 MPa/650 °C

Série aérospatiale - Vis à tête cylindrique, réduite, à empreinte cruciforme déportée, à tige réduite, à filetage long, en acier résistant à chaud FE-PA92HT (A286), argentées - Classification: 900 MPa/650 °C

Luft- und Raumfahrt - Flachkopfschrauben mit geripptem Flügelkreuzschlitz, Dünnschaft, langes Gewinde, aus hochwarmfestem Stahl FE-PA92HT (A286), versilbert - Klasse: 900 MPa/650 °C

This European Standard was approved by CEN on 21 December 2007.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 3636:2008) has been prepared by the Aerospace and Defence Industries Association of Europe - Standardization (ASD-STAN).

After enquiries and votes carried out in accordance with the rules of this Association, this Standard has received the approval of the National Associations and the Official Services of the member countries of ASD, prior to its presentation to CEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 2008, and conflicting national standards shall be withdrawn at the latest by October 2008.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This standard specifies the requirements for offset cruciform recess pan head screws with relieved shank and long thread in heat resisting steel FE-PA92HT, silver plated, tensile strength class 900 MPa at room temperature. The maximum test temperature of the material is 650 °C.

2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

ISO 3353-1, *Aerospace — Lead and runout threads — Part 1: Rolled external threads.*

ISO 5855-1, *Aerospace — MJ threads — Part 1: General requirements.*

ISO 5855-2, *Aerospace — MJ threads — Part 2: Limit dimensions for bolts and nuts.*

ISO 14275, *Aerospace — Drives, internal, offset cruciform, ribbed — Metric series.*

ISO 14277, *Aerospace — Drivers, ribbed, for internal offset cruciform ribbed or unribbed drives — Metric series.*

ISO 14278, *Aerospace — Gauges, for internal offset cruciform ribbed or unribbed drives — Metric series.*

EN 2398, *Aerospace series — Heat resisting steel FE-PA2601 (X6NiCrTiMoV26-15) — $R_m \geq 900$ MPa — Bars for machined bolts — $D \leq 25$ mm. ¹⁾*

EN 2399, *Heat resisting steel FE-PA92-HT — $R_m \geq 900$ MPa — Bars for forged bolts $D \leq 25$ mm — Aerospace series. ¹⁾*

EN 2424, *Aerospace series — Marking of aerospace products.*

EN 2786, *Aerospace series — Electrolytic silver plating of fasteners. ²⁾*

EN 3043, *Aerospace series — Fasteners, externally threaded, in heat resisting steel FE-PA92HT (A286) — Classification: 900 MPa/650 °C — Manufacturing method optional — Technical specification. ²⁾*

3 Required characteristics

3.1 Configuration – Dimensions – Tolerances

Configuration: see Figure 1.

Dimensions and tolerances: see Figure 1 and Tables 1 and 2, dimensions in millimetres.

3.2 Material

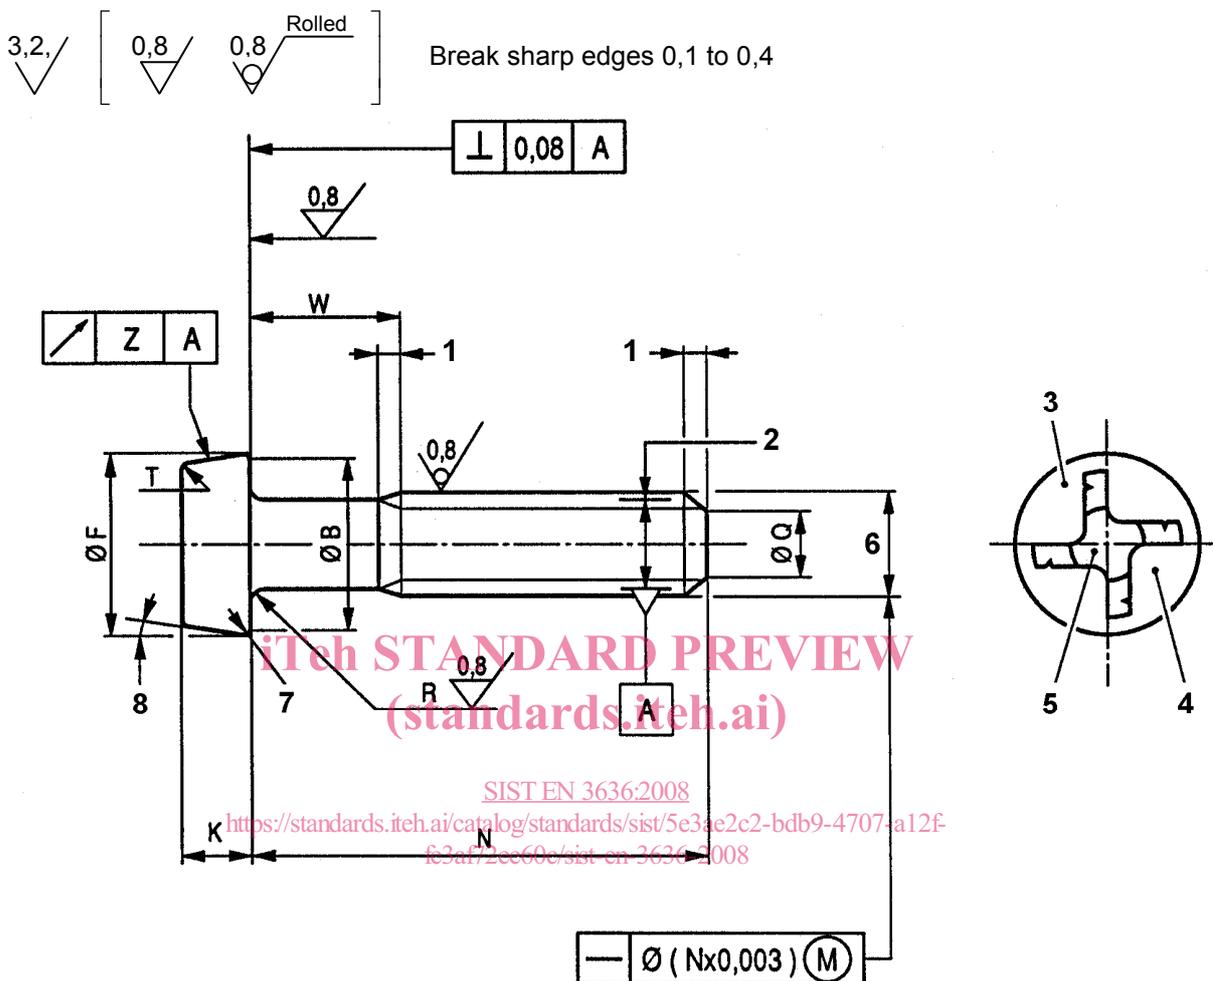

Heat resisting steel FE-PA92HT: see EN 2398 or EN 2399.

1) Published as ASD Standard at the date of publication of this standard.

2) Published as ASD Prestandard at the date of publication of this standard.

3.3 Surface coating

Silver coat all over: see EN 2786, coating thickness 3 µm to 6 µm on the thread flanks, measured at the pitch diameter.

Key

- | | |
|---------------------------------|---|

^a The preferred length range lies within the bold lines. If greater lengths are necessary they shall be chosen in steps of 2 mm for lengths *L* less than 100 mm and in multiples of 4 above 100 mm. The length code corresponds to the length *L* in millimetres completed by zeros to the left, where necessary to obtain a 3 digit code.
