BODY OF THE HD

iTeh STANDARD PREVIEW
(standards.iteh.ai)

SIST HD 280.3 S1:1999
 This Harmonization Document was approved by CENELEC on 1990-06-11.
 ed7b35B40ee/sist-hd-280-3-s1-1999

The English and French versions of this Harmonization Document are provided by the text of the IEC publication and the German version is the official translation of the IEC text.

According to the CENELEC Internal Regulations the CENELEC member National Committees are bound:

to announce the existence of this Harmonization Document at national level by or before 1990-12-15

to publish their new harmonized national standard by or before 1991-06-15

to withdraw all conflicting national standards by or before 1991-06-15.

Harmonized national standards are listed on the HD information sheet, which is available from the CENELEC National Committees or from the CENELEC Central Secretariat.

The CENELEC National Committees are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Révision de la présente publication

Le contenu technique des publications de la CEI est constamment revu par la Commission afin d'assurer qu'il reflète bien l'état actuel de la technique.

Les renseignements relatifs à ce travail de révision, à l'établissement des éditions révisées et aux mises à jour peuvent être obtenus auprès des Comités nationaux de la CEI et en consultant les documents ci-dessous:

- **Bulletin de la CEI**
- **Annuaire de la CEI**
- **Catalogue des publications de la CEI**
Publié annuellement

Terminologie

En ce qui concerne la terminologie générale, le lecteur se reportera à la Publication 50 de la CEI: Vocabulaire Electrotechnique International (V.E.I.), qui est établie sous forme de chapitres séparés traitant chacun d'un sujet défini, l'Index général étant publié séparément. Des détails complets sur le V.E.I. peuvent être obtenus sur demande.

Les termes et définitions figurant dans la présente publication ont été soit repris du V.E.I., soit spécifiquement approuvés aux fins de cette publication.

Symboles graphiques et littéraux

SIST HD 280.3 S1:1999

Pour les symboles graphiques, symboles littéraux et signes d'usage général approuvés par la CEI, le lecteur consultera:

- la Publication 27 de la CEI: Symboles littéraux à utiliser en électrotechnique;
- la Publication 117 de la CEI: Symboles graphiques recommandés.

Les symboles et signes contenus dans la présente publication ont été soit repris des Publications 27 ou 117 de la CEI, soit spécifiquement approuvés aux fins de cette publication.

Publications de la CEI établies par le même Comité d'Etudes

L'attention du lecteur est attirée sur la page 3 de la couverture, qui énumère les publications de la CEI préparées par le Comité d'Etudes qui a établi la présente publication.

Revision of this publication

The technical content of IEC publications is kept under constant review by the IEC, thus ensuring that the content reflects current technology.

Information on the work of revision, the issue of revised editions and amendment sheets may be obtained from IEC National Committees and from the following IEC sources:

- **IEC Bulletin**
- **IEC Yearbook**
- **Catalogue of IEC Publications**
Published yearly

Terminology

For general terminology, readers are referred to IEC Publication 50: International Electrotechnical Vocabulary (I.E.V.), which is issued in the form of separate chapters each dealing with a specific field, the General Index being published as a separate booklet. Full details of the I.E.V. will be supplied on request.

The terms and definitions contained in the present publication have either been taken from the I.E.V. or have been specifically approved for the purpose of this publication.

(standards.iteh.ai)

Graphical and letter symbols

For graphical symbols, and letter symbols and signs approved by the IEC for general use, readers are referred to:

- IEC Publication 27: Letter symbols to be used in electrical technology;
- IEC Publication 117: Recommended graphical symbols.

The symbols and signs contained in the present publication have either been taken from IEC Publications 27 or 117, or have been specifically approved for the purpose of this publication.

IEC publications prepared by the same Technical Committee

The attention of readers is drawn to the inside of the back cover, which lists IEC publications issued by the Technical Committee which has prepared the present publication.

INTERNATIONAL ELECTROTECHNICAL COMMISSION

SAFETY REQUIREMENTS FOR ELECTRIC FANS AND REGULATORS**Part 3: Jet fans****FOREWORD**

- 1) The formal decisions or agreements of the IEC on technical matters, prepared by Technical Committees on which all the National Committees having a special interest therein are represented, express, as nearly as possible, an international consensus of opinion on the subjects dealt with.
- 2) They have the form of recommendations for international use and they are accepted by the National Committees in that sense.
- 3) In order to promote international unification, the IEC expresses the wish that all National Committees should adopt the text of the IEC recommendation for their national rules in so far as national conditions will permit. Any divergence between the IEC recommendation and the corresponding national rules should, as far as possible, be clearly indicated in the latter.

iTeh STANDARD PREVIEW

<https://standards.iteh.ai/catalog/standards/sist/5435599e-dcc4-4dfl-abee-ed7b35340ee/sist-hd-280-3-s1-1999>
PREFACE

This standard has been prepared by IEC Technical Committee No. 43: Electric Fans for Household and Similar Purposes.

A draft was discussed at the meeting held in Stockholm in June 1980. As a result of this meeting, a draft, Document 43(Central Office)42, was submitted to the National Committees for approval under the Six Months' Rule in November 1980.

The National Committees of the following countries voted explicitly in favour of publication:

Australia	Israel	Spain
Austria	Italy	Switzerland
Belgium	Japan	Turkey
Egypt	Netherlands	Union of Soviet Socialist Republics
German Democratic Republic	New Zealand	
India	Romania	
	South Africa (Republic of)	

This revision of IEC Publication 342 (1971) will be published in three parts dealing separately with safety requirements for different types of fans as follows:

- Part 1: Fans and Regulators for Household and Similar Purposes.
- Part 2: Fans and Regulators for Use in Ships.
- Part 3: Jet Fans.

The complete standard, comprising all three parts, replaces the previous IEC Publication 342.

This standard should be used in conjunction with the second edition (1976) of IEC Publication 335-1 as modified by Amendments No. 1 (1977) and No. 2 (1979). It lists the changes necessary to convert that publication into the IEC Standard: Safety requirements for electric fans and regulators.

342-3 © IEC 1982

— 7 —

In this publication:

the following print types are used:

- requirements proper: in roman type;
- *test specifications*: in italic type;
- explanatory matter: in smaller roman type.

Other IEC publications quoted in this standard:

- Publications Nos. 34-1: Rotating Electrical Machines, Part I: Rating and Performance.
335-1: Safety of Household and Similar Electrical Appliances, Part I: General Requirements
(Second edition, 1976).
529: Classification of Degrees of Protection Provided by Enclosures.
535: Jet Fans and Regulators.

SAFETY REQUIREMENTS FOR ELECTRIC FANS AND REGULATORS

Part 3: Jet fans

1. Scope

This clause of IEC Publication 335-1: Safety of Household and Similar Electrical Appliances, Part 1: General Requirements, is applicable except as follows:

1.1 *Replacement:*

This standard applies to jet fans commonly known as air circulators and air blast cooling fans oscillating and non-oscillating and their associated regulators intended for use on single phase a.c. circuits and d.c. circuits not exceeding 250 V; air blast cooling fans may be intended for use on three phase a.c. system up to 440 V.

iTeh STANDARD PREVIEW

Wherever applicable, the term "fan" used in this standard includes its associated regulators, if any.

Provisions of this standard may also be adapted to the extent applicable to fans not intended for normal household use, which nevertheless may be a source of danger to the public.

<https://standards.iteh.ai/catalog/standards/sist/5435599e-dcc4-4df1-abee-ed7b35b340ee/sist-hd-280-3-s1-1999>

Additional requirements may also be necessary for fans intended to be used in:

- i) vehicles; and
- ii) tropical countries.

Attention is drawn to the fact that in many countries additional requirements may be specified by the national health authorities and the national authorities responsible for protection of labour.

This standard does not apply to safety requirements for jet fans intended to be used in locations where special conditions prevail, such as the presence of corrosive or explosive atmosphere.

1.2 *Addition:*

This standard is concerned with safety requirements of jet fans and does not cover performance requirements and corresponding tests which are covered in IEC Publication 535: Jet Fans and Regulators.

2. Definitions

This clause of IEC Publication 335-1 is applicable except as follows:

2.1 *Addition:*

The term "appliance" includes fan with its regulator, if any.
