### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

#### IEC Catalogue - [webstore.iec.ch/catalogue](http://webstore.iec.ch/catalogue)

The stand-alone application for consulting the entire bibliographical information on IEC International Standards, Technical Specifications, Technical Reports and other documents. Available for PC, Mac OS, Android Tablets and iPad.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in 15 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

#### IEC publications search - [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

#### IEC Glossary - [std.iec.ch/glossary](http://std.iec.ch/glossary)

More than 60 000 electrotechnical terminology entries in English and French extracted from the Terms and Definitions clause of IEC publications issued since 2002. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and also once a month by email.

#### IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [csc@iec.ch](mailto:csc@iec.ch).

### A propos de l'IEC

La Commission Electrotechnique Internationale (IEC) est la première organisation mondiale qui élabore et publie des Normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

### A propos des publications IEC

Le contenu technique des publications IEC est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

#### Catalogue IEC - [webstore.iec.ch/catalogue](http://webstore.iec.ch/catalogue)

Application autonome pour consulter tous les renseignements bibliographiques sur les Normes internationales, Spécifications techniques, Rapports techniques et autres documents de l'IEC. Disponible pour PC, Mac OS, tablettes Android et iPad.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

Le premier dictionnaire en ligne de termes électroniques et électriques. Il contient plus de 30 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans 15 langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International (IEV) en ligne.

#### Recherche de publications IEC - [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

La recherche avancée permet de trouver des publications IEC en utilisant différents critères (numéro de référence, texte, comité d'études,...). Elle donne aussi des informations sur les projets et les publications remplacées ou retirées.

#### Glossaire IEC - [std.iec.ch/glossary](http://std.iec.ch/glossary)

Plus de 60 000 entrées terminologiques électrotechniques, en anglais et en français, extraites des articles Termes et Définitions des publications IEC parues depuis 2002. Plus certaines entrées antérieures extraites des publications des CE 37, 77, 86 et CISPR de l'IEC.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Restez informé sur les nouvelles publications IEC. Just Published détaille les nouvelles publications parues. Disponible en ligne et aussi une fois par mois par email.

#### Service Clients - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

Si vous désirez nous donner des commentaires sur cette publication ou si vous avez des questions contactez-nous: [csc@iec.ch](mailto:csc@iec.ch).

## iTeh STANDARD PREVIEW (standards.iteh.ai)

[IEC 61048:2006/AMD1:2015](#)

<https://standards.iteh.ai/catalog/standards/sist/39e40cee-bf0c-4c77-81b3-ed1ac44359d8/iec-61048-2006-amd1-2015>

## FOREWORD

This amendment has been prepared by subcommittee 34C: Auxiliaries for lamps, of IEC technical committee 34: Lamps and related equipment.

The text of this amendment is based on the following documents:

FDIS	Report on voting
34C/1155/FDIS	34C/1160/RVD

Full information on the voting for the approval of this amendment can be found in the report on voting indicated in the above table.

The committee has decided that the contents of this amendment and the base publication will remain unchanged until the stability date indicated on the IEC website under "http://webstore.iec.ch" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

## CONTENTS

*Add the titles of the new Annexes E and F:*

Annex E (normative) Additional requirements for built-in capacitors having an insulation equivalent to double or reinforced insulation

Annex F (informative) Information for luminaire design

## 1 Scope

*Add, at the end of the scope, the following new sentence:*

Particular requirements for built-in capacitors having an insulation equivalent to double or reinforced insulation are given in Annex E.

*Add the following new Annexes E and F:*

## Annex E (normative)

### Additional requirements for built-in capacitors having an insulation equivalent to double or reinforced insulation

#### E.1 Application of Annex E

This annex applies to built-in capacitors intended for use in Class II luminaires having insulation equivalent to double or reinforced insulation.

#### E.2 Terms and definitions

For the purposes of this annex, the following terms and definitions apply.

##### E.2.1

**built-in capacitor having an insulation equivalent to double or reinforced insulation**  
capacitor designed to be built into a luminaire, an enclosure or the like not intended to be mounted outside a luminaire in which accessible metallic parts are insulated from the live parts by double or reinforced insulation

Note 1 to entry: For the definitions of double and reinforced insulation, see IEC 60598-1, 1.2.16, 1.2.17, 1.2.18 and 1.2.19.

Note 2 to entry: Particular requirements of IEC 60598-1, Section 10 and Section 11 apply.

#### E.3 General requirements [IEC 61048:2006/AMD1:2015](#)

<https://standards.iteh.ai/catalog/standards/sist/39e40cee-bf0c-4c77-81b3-11ac44359d8/iec-61048-2006-amd1-2015>

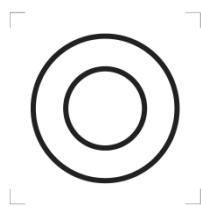

Clause 4 of this standard applies.

#### E.4 General notes on tests

Clause 5 of this standard applies.

#### E.5 Marking

In addition to the marking mentioned under Clause 6 of this standard, built-in capacitors having an insulation equivalent to double or reinforced insulation shall be identified by the symbol IEC 60417-6295 (2014-09):

The meaning of this marking shall be explained in the manufacturer's literature or catalogue.

#### E.6 Terminations

Clause 7 of this standard applies.

## **E.7 Creepage distances and clearances**

Clause 8 of this standard applies with the following addition.

For built-in capacitors having an insulation equivalent to double or reinforced insulation, the requirements of IEC 60598-1, Section 11 and Annex M apply.

## **E.8 Voltage rating**

Clause 9 of this standard applies.

## **E.9 Fuses**

Clause 10 of this standard applies.

## **E.10 Discharge resistors**

Clause 11 of this standard applies.

## **E.11 Testing sequence**

**iTeh STANDARD PREVIEW**  
**(standards.iteh.ai)**

## **E.12 Sealing and heating test**

[IEC 61048:2006/AMD1:2015](#)

Clause 12 of this standard applies.  
<https://standards.iteh.ai/catalog/standards/sist/39e40cee-bf0c-4c77-81b3-edfa44359d8/iec-61048-2006-amd1-2015>

## **E.13 High-voltage test**

### **E.13.1 General**

Clause 14 of this standard applies with the following addition.

For built-in capacitors having an insulation equivalent to double or reinforced insulation, 14.2 shall be modified as in E.13.2

### **E.13.2 High-voltage test between terminals and case for Class II capacitors**

The dielectric strength test given in IEC 60598-1, Table 10.2 shall be used for the high-voltage test between terminals and case.

## **E.14 Resistance to adverse operating conditions**

Clause 15 of this standard applies.

## **E.15 Resistance to heat, fire and tracking**

Clause 16 of this standard applies.

## E.16 Self-healing test

Clause 17 of this standard applies.

## E.17 Destruction test

Clause 18 of this standard applies, with the following modifications.

For built-in capacitors having an insulation equivalent to double or reinforced insulation:

- the last sentence of 18.1.2 shall be replaced by the following:  
*Compliance is checked by the requirements of 18.1.4. One failure is permitted for a) and b). No failures are permitted for c) and d).*
- item d) of 18.1.4 shall be replaced by the following:  
*d) the capacitor shall withstand the test of 14.2 (not modified as in E.13.2), the test voltage being reduced by 500 V.*
- item b) of 18.2.3.5 shall be replaced by the following:  
*b) The capacitors shall withstand the high-voltage test between the terminals and the case in accordance with 14.2 (not modified as in E.13.2).*
- 18.2.3.6 shall be replaced by the following:

*All capacitors becoming inoperative shall fulfil the requirements of 18.2.3.4 b) and c) and 18.2.3.5 b).*

*If one of the test specimens (standards/initial) does not satisfy the criteria according to 18.2.3.4 a) and 18.2.3.5 a), the test may be repeated once on a further 40 samples. However, all the capacitors shall pass the repeat test.*

*If more than one capacitor does not satisfy the criteria according to 18.2.3.4 a) and 18.2.3.5 a), the test shall be regarded as having failed.*

IEC 61048:2006/AMD1:2015

**Annex F**  
(informative)

**Information for luminaire design**

For type B capacitors an adequate space on the top of the capacitor shall be free from other components, in order to allow the correct operation of the overpressure device.

The connections and the connected cable shall not provide appreciable resistance to the movement under the above-mentioned conditions.

After the operation of the overpressure device, creepage distances and clearances shall not be reduced below the required limits.

The capacitor manufacturer may be consulted to define the increased dimensions of the capacitor after operation of the overpressure device.

---
