Third edition 1993-07-15

## Abrasive sheets — Dimensions, tolerances and designation

iTeh Feuilles abrasives Dimensions, tolérances et désignation (standards.iteh.ai)

#### **Foreword**

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting VIEW a vote.

International Standard ISO 2235 was prepared by Technical Committee ISO/TC 29, Small tools, Sub-Committee SC 5, Grinding wheels and abrasives.

### Abrasive sheets — Dimensions, tolerances and designation

#### Scope

This International Standard specifies the dimensions and tolerances, in millimetres, for abrasive sheets intended for use on portable machines or for hand sanding; it also specifies their designation.

These tolerances are valid only for abrasive sheets as supplied by the manufacturer, and measured under the conditions of reference of the place where these products are manufactured.

- Temperature: 20 °C  $\pm$  2 °C ) in accordance — Relative humidity: 65 %  $\pm$  5 %
- Nominal dimensions and tolerances

#### Measurements shall be carried out on sheets stored for at least 24 h under the above conditions.

### 2.1 Nominal dimensions

#### tandards.iselpesignation 2.1.1 Abrasive papers and cloths in sheets

ISO 2235:199An abrasive sheet conforming to this International 230 mm × 280 mm https://standards.iteh.ai/catalog/standards/sis Standard shall be designated by

## 2.1.2 Abrasive papers and cloths in small sheets 9/iso-2235-1,993 "Abrasive sheet";

70 mm × 115 mm

70 mm × 230 mm

93 mm × 230 mm

140 mm × 230 mm

115 mm × 140 mm

115 mm × 280 mm

- b) reference to this International Standard;
- c) the width, l, in millimetres;
- d) the length, L, in millimetres.

#### **EXAMPLE**

An abrasive sheet of width l = 230 mm and length L = 280 mm is designated as follows:

Abrasive sheet ISO 2235 - 230 × 280

#### 2.2 Tolerances

The dimensional tolerances for lengths and widths of abrasive sheets shall be, for all sizes,  $\pm$  3 mm.
