This European Standard was approved by CEN on 26 October 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

SIST EN 2327:2009

<https://standards.iteh.ai/catalog/standards/sist/f9198889-9c6b-4cd8-8186-b41ab5104e5e/sist-en-2327-2009>

## Foreword

This European Standard (EN 2327:2006) has been prepared by the European Association of Aerospace Manufacturers - Standardization (AECMA-STAN).

After enquiries and votes carried out in accordance with the rules of this Association, this Standard has received the approval of the National Associations and the Official Services of the member countries of AECMA, prior to its presentation to CEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by November 2006, and conflicting national standards shall be withdrawn at the latest by November 2006.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This European Standard supersedes EN 2327:1987.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

SIST EN 2327:2009

<https://standards.iteh.ai/catalog/standards/sist/f9198889-9c6b-4cd8-8186-b41ab5104e5e/sist-en-2327-2009>

**EN 2327:2006 (E)****1 Scope**

This standard specifies the characteristics of lock washers with radial serrations primarily intended for flight control rods.

These lock washers are intended to immobilise the rod end in relation to the rod body, whilst allowing a precise positional adjustment.

**2 Normative references**

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 2133, *Aerospace series – Cadmium plating of steels with specified tensile strength  $\leq 1\ 450\ MPa$ , copper, copper alloys and nickel alloys*.

EN 2438, *Steel FE-PL62 –  $900\ MPa \leq R_m \leq 1\ 100\ MPa$  – Bars  $D_e \leq 40\ mm$  – Aerospace series*.<sup>1)</sup>

EN 2439, *Steel FE-PL62 –  $900\ MPa \leq R_m \leq 1\ 100\ MPa$  – Forgings  $D_e \leq 40\ mm$  – Aerospace series*.<sup>1)</sup>

EN 9133, *Aerospace series — Quality management systems — Qualification procedure for aerospace standard parts*.

**iTeh STANDARD PREVIEW**

**(standards.iteh.ai)**

**3 Required characteristics**

SIST EN 2327:2009

**3.1 Dimensions – Mass**

<https://standards.iteh.ai/catalog/standards/sist/f9198889-9c6b-4cd8-8186-b41ab5104e5e/sist-en-2327-2009>

Configuration shall correspond to Figures 1, 2 and 3.

The dimensions and masses shall conform with values quoted in Tables 1 and 2.

Dimensions apply after cadmium plating.

**3.2 Surface roughness**

$R_a = 3,2\ \mu m$ . This value applies prior to cadmium plating.

**3.3 Material**

Steel according to EN 2438.

Steel according to EN 2439.

**3.4 Surface treatment**

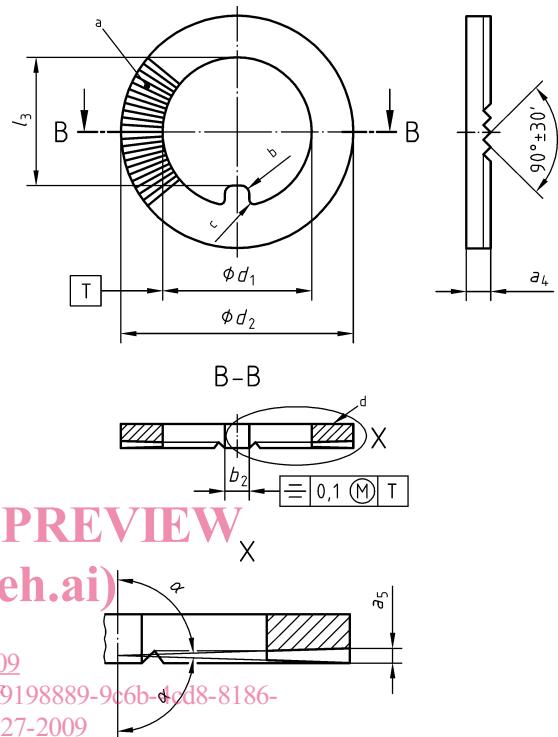

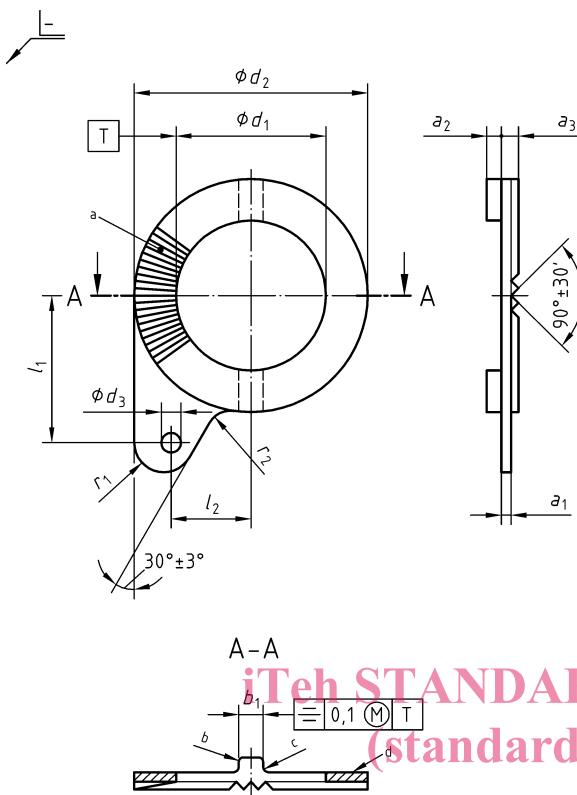

Cadmium plated according to EN 2133, 10  $\mu m$  to 20  $\mu m$ .
