EUROPÄISCHE NORM

EN 14145

April 2003

ICS 47.080

English version

Holders for lifebuoys

Attaches pour bouées de sauvetage

Halter für Rettungsringe

This European Standard was approved by CEN on 2 January 2003.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document EN 14145:2003 has been prepared by Technical Committee CEN/TC 15 “Inland navigation vessels”, the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 2003, and conflicting national standards shall be withdrawn at the latest by October 2003

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and the United Kingdom.

EN 14145:2003 (E)

1 Scope

This standard specifies the types and dimensions of holders for lifebuoys in accordance with EN 14144.

The holder is used as a support for the lifebuoy.

2 Normative references

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies (including amendments).

EN 14144, *Lifebuoys - Requirements, tests*.

ISO 2768-1, *General tolerances – Part 1: Tolerances for linear and angular dimensions without individual tolerance indications*.

3 Dimensions

General tolerance: ISO 2768 - c

Edges shall be rounded with min. R 0,3 mm

NOTE The rounding of the edges is intended to prevent clothing from becoming caught.

The holder shall conform to the dimensions specified in Figures 1, 2 and 3. The holder is not expected to conform to the design illustrated here.

Figure 1 shows one of the three securing plates for holders, form A or B.

Figure 2 shows form A with the configuration of the three securing plates welded to a wall.

Figure 3 shows form B as a holder for bolting on.

Dimensions in millimetres

Dimensions in millimetres

Figure 3 — Holder for bolting on (form B)

NOTE Holders of form B may also be fitted with a holder for a lifebuoy light.

EN 14145:2003 (E)**4 Material**

The material used shall be either steel, hot-dip galvanized steel, stainless steel, aluminium resistant to seawater or plastic

For the purposes of the designation in clause 6, the following abbreviations shall be used:

Al – aluminium;
Stst – stainless steel;
St – steel.
Hgal st – hot-dip galvanized steel;
Pl – plastic.

5 Surface protection

The surfaces of the holder shall be plane where the lifebuoy is attached so that chafing cannot occur.

6 Designation

An example of the designation of a holder for lifebuoys shall comprise the name (holder), the standard number, the form (B) and the material (hot-dip galvanized steel: Hgal st):
