## Foreword

This European Telecommunication Standard (ETS) has been produced by the Signalling Protocols & Switching (SPS) technical committee of the European Telecommunications Standards Institute (ETSI).

This ETS specifies version 1 of the CCITT Signalling System No.7 - ISDN User Part (ISUP).

The text of CCITT Recommendation Q.767 (1991) is identical to that of this ETS. It has therefore been decided to endorse the text of CCITT Recommendation Q.767 (1991), without any modification, other than the addition of an ETSI specific scope.

CCITT Recommendation Q.767 (1991) can be obtained from:

CCITT  
Place des Nations  
CH-121 Geneva
