Foreword

This document (HD 60364-5-51:2009/A11:2013) has been prepared by CLC/TC 64 "Electrical installations and protection against electric shock".

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2014-07-22
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2016-07-22

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

1 Modification to 512.1.5, Compatibility

Replace the existing note with the following:

NOTE 1 Information on the parameters to be considered is given in HD 60364-4-444.

The responsible person for fixed installation shall provide, upon request, documentation which is established as specified by EMC directive 2004/108.

NOTE 2 The level of detail of the documentation may vary from very simple information to much more detailed documentation for complex installations involving important potential EMC aspects. Where installations are comprised solely of apparatus placed on the market in conformity with the EMC Directive and carrying the CE marking, the responsible person satisfies the documentation requirements placed on him by being able to provide, on request, the instructions for installation, use and maintenance provided by the supplier of each apparatus.

NOTE 3 Member States are responsible for establishing provisions to identify such persons who are responsible for a fixed installation.
