WIND TURBINES –
Part 12-2: Power performance of electricity-
producing wind turbines
based on nacelle anemometry

ÉOLIENNES
Partie 12-2: Performance de puissance des
éoliennes de production d'électricité
basée sur l'anémométrie de nacelle

CORRIGENDUM 1

Corrections to the French version appear after the English text.

Les corrections à la version française sont données après le texte anglais.

D.4 Measurement procedure

In the third paragraph, replace

"The met-mast data shall be binned against the nacelle wind speed according to the method of bins described in the IEC 61400-12-1:2005, with the nacelle wind speed on the X-axis."

by

"The nacelle wind speed shall be binned against the free stream wind speed according to the method of bins described in the IEC 61400-12-1:2005, with the free stream wind speed on the X-axis."
