5.3 Actions to be taken before putting the wire rope sling into first use

Insert the following additional paragraph at the end of the clause

d) The need to ensure that the identification and WLL of the sling corresponds to the information on the certificate.

A.2.2 Inspection

Insert the following additional paragraph at the end of the clause

Following examination of a sling with illegible markings and unless it can be shown that the sling was fabricated from rope having a grade other than 1770, the competent person should assume that the rope grade is 1770 when determining the new working load limit (WLL).
