Technical Corrigendum 1 to ISO 14698-2:2003 was prepared by Technical Committee ISO/TC 209, *Cleanrooms and associated controlled environments*.

---

Page 1

3.1. Delete the word “microbiological” from the definition “microbiological level...,” such that it now reads as follows:

“level set by the user in the context of controlled environments, which, when exceeded, required immediate intervention, including investigation of cause, and corrective action”

3.2. Replace the existing definition with the following (to be consistent with ISO 14698-1:2003, 3.1.2, the note remains unchanged):

“level set by the user in the context of controlled environments, giving early warning of a drift from normal conditions, which, when exceeded, should result in increased attention to the process”

*Page 2*

3.10. Replace the existing definition with the following:

“potential source of harm

[ISO/IEC Guide 51:1999, 3.5][8]”

3.13. Replace the existing definition with the following (to be consistent with ISO 14698-1:2003, 3.1.20):

“defined level set by the user as a goal for routine operations, for the user's own purpose”
