## Contents

Foreword .....	7
1 Scope .....	9
2 Normative references .....	9
3 Definitions and abbreviations .....	10
3.1 Definitions .....	10
3.2 DECT abbreviations and acronyms .....	12
3.3 ISDN abbreviations and acronyms .....	13
4 Features for the ISDN-DECT access service .....	14
4.1 Description of the features .....	14
4.1.1 Outgoing call (feature 0).....	14
4.1.2 Speech (feature 1).....	14
4.1.3 Off-hook (feature 4).....	14
4.1.4 On-hook - full release (feature 5) .....	14
4.1.5 Dialed digits - basic (feature 7).....	14
4.1.6 Dialed digits - additional (feature 8).....	14
4.1.7 Dialling delimiter (feature 9) .....	14
4.1.8 Incoming call (feature 16).....	14
4.1.9 Control of supervisory tones (feature 26).....	14
4.1.10 Signalling of display characters (feature 28) .....	14
4.1.11 Selection of required teleservice (feature 52).....	14
4.1.12 Selection of bearer service (feature 53) .....	14
4.1.13 Voice band data capability (feature 60).....	15
4.1.14 Keypad protocol for supplementary services (feature 61).....	15
4.1.15 64 kbit/s unrestricted digital information (feature 75) .....	15
4.1.16 Overlap sending - outgoing call (feature 77) .....	15
4.1.17 Functional supplementary service Calling Line Identification Presentation (CLIP) (feature 101) .....	15
4.1.18 Functional supplementary service Calling Line Identification Restriction (CLIR) (feature 102) .....	15
4.1.19 Functional supplementary service CONnected Line Identification Presentation (COLP) (feature 103) .....	15
4.1.20 Functional supplementary service CONnected Line Identification Restriction (COLR) (feature 104) .....	15
4.1.21 Functional supplementary service Multiple Subscriber Number (MSN) (feature 105).....	15
4.1.22 Functional supplementary service Direct Dialling In (DDI) (feature 106) .....	15
4.1.23 Functional supplementary service SUBaddressing (SUB) (feature 107) .....	15
4.1.24 Functional supplementary service Call Waiting (CW) (feature 108) .....	15
4.1.25 Functional supplementary service HOLD (feature 109) .....	15
4.1.26 Functional supplementary service Closed User Group (CUG) (feature 110).....	15
4.1.27 Functional supplementary service Advice Of Charge (AOC) (feature 111) ..	16
4.1.28 Functional supplementary service Malicious Call IDentification (MCID) (feature 112).....	16
4.1.29 Functional supplementary service CONference call, add-on (CONF) (feature 113).....	16
4.1.30 Functional supplementary service Three party (3PTY) (feature 114) .....	16
4.1.31 Functional supplementary service Call Deflection (CD) (feature 115) .....	16
4.1.32 Functional supplementary service UUS service 1 (UUS1) (feature 116) .....	16
4.1.33 Functional supplementary service UUS service 2 (UUS2) (feature 117) .....	16
4.1.34 Functional supplementary service UUS service 3 (UUS3) (feature 118) .....	16
4.1.35 Functional supplementary service Explicit Call Transfer (ECT) (feature 119).....	16

4.1.36	Functional supplementary service Completion of Calls to Busy Subscriber (CCBS) (feature 120).....	16
4.1.37	Functional supplementary service Free Phone (FPH) (feature 121).....	16
4.1.38	Functional supplementary service Meet-Me Conference (MMC) (feature 122).....	16
4.1.39	Functional supplementary service "Call Forwarding" (CF) (feature 123).....	16
5	Requirements regarding the Network (NWK) layer.....	17
5.1	Summary of features and related procedures.....	17
5.2	Procedures.....	18
5.3	Mapping of the features onto the procedures.....	21
5.3.1	Outgoing call (feature 0).....	21
5.3.2	Duplex speech (feature 1).....	21
5.3.3	Off-hook (feature 4).....	21
5.3.4	On-hook - full release (feature 5).....	21
5.3.5	Dialled digits - basic (feature 7).....	21
5.3.6	Dialled digits - additional (feature 8).....	21
5.3.7	Dialling delimiter (feature 9).....	21
5.3.8	Incoming call (feature 16).....	22
5.3.9	Control of supervisory tones (feature 26).....	22
5.3.10	Signalling of display characters (feature 28).....	22
5.3.11	Selection of required teleservice (feature 52).....	22
5.3.12	Selection of bearer service (feature 53).....	22
5.3.13	Voice band data capability (feature 60).....	22
5.3.14	Keypad protocol for supplementary services - CRSS (feature 61a).....	22
5.3.15	64 kbit/s unrestricted digital information (feature 75).....	22
5.3.16	Overlap sending - outgoing call (feature 77).....	23
5.3.17	Functional supplementary service CLIP (feature 101).....	23
5.3.18	Functional supplementary service CLIR (feature 102).....	23
5.3.19	Functional supplementary service COLP (feature 103).....	23
5.3.20	Functional supplementary service COLR (feature 104).....	23
5.3.21	Functional supplementary service MSN (feature 105).....	23
5.3.22	Functional supplementary service DDI (feature 106).....	23
5.3.23	Functional supplementary service SUB (feature 107).....	23
5.3.24	Functional supplementary service CW (feature 108).....	23
5.3.25	Functional supplementary service HOLD (feature 109).....	24
5.3.26	Functional supplementary service CUG (feature 110).....	24
5.3.27	Functional supplementary service AOC (feature 111).....	24
5.3.28	Functional supplementary service MCID (feature 112).....	24
5.3.29	Functional supplementary service CONF (feature 113).....	24
5.3.30	Functional supplementary service 3PTY (feature 114).....	24
5.3.31	Functional supplementary service CD (feature 115).....	24
5.3.32	Functional supplementary service UUS1 (feature 116).....	24
5.3.33	Functional supplementary service UUS2 (feature 117).....	25
5.3.34	Functional supplementary service UUS3 (feature 118).....	25
5.3.35	Functional supplementary service ECT (feature 119).....	25
5.3.36	Functional supplementary service CCBS (feature 120).....	25
5.3.37	Functional supplementary service FPH (feature 121).....	25
5.3.38	Functional supplementary service MMC (feature 122).....	25
5.3.39	Functional supplementary service CF (feature 123).....	25
6	Requirements regarding the DLC layer.....	26
6.1	Control plane.....	26
6.1.1	Minimum requirements.....	26
6.1.2	Incoming call (feature 16).....	26
6.2	User plane.....	26
7	MAC layer requirements.....	26
7.1	MAC layer services.....	26
7.1.1	Connection oriented services.....	26
7.1.2	Broadcast services.....	26
7.2	MAC layer procedures.....	27
7.2.1	Connection oriented service procedures.....	27

	7.2.1.1	General .....	27
7.3	Required messages .....		27
	7.3.1	Header field .....	27
	7.3.2	Messages in the tail field .....	27
	7.3.2.1	Identities information (N <sub>T</sub> tail).....	27
	7.3.2.2	System information and multiframe marker (Q <sub>T</sub> tail) .....	28
	7.3.2.3	Paging (P <sub>T</sub> tail) .....	28
	7.3.2.4	MAC control (M <sub>T</sub> tails).....	28
	7.3.3	Messages in the B-field .....	29
7.4	Monitoring of speech quality .....		29
8	Requirements regarding the PHL layer .....		29
8.1	General .....		29
9	Requirements regarding the speech transmission.....		29
9.1	General .....		29
Annex A (informative):	Bibliography .....		30
History.....			31
