Annex D

Add:

A-deviation France

France(Arrêté du 1er juillet 1991 portant approbation du Recueil des épreuves d'agrément des artifices de divertissement publié au J.O.R.F. du 20 juillet 1991)The duration of the test for the thermal conditioning shall be 72 h.La durée de l'essai pour le conditionnement thermique est de 72 h.

A-deviation Ireland

The basis for applying to the Technical Committee (CEN/TC 212) for an A Deviation is due to the current policy of the Irish Government on the sale of consumer fireworks. On safety and security grounds, the sale of consumer fireworks (of any category) to the general public, is not permitted under current Government policy. Importation licences can be issued, but only for fireworks used for organised displays, conducted by professional competent operators. This policy is referenced in the "Guidance Document on Organised Fireworks Displays July 2003" issued by the Irish Government Department of Justice, Equality and Law Reform.
