This European Standard was approved by CENELEC on 2015-04-14. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

Foreword

The text of document 40/2338/FDIS, future edition 4 of IEC 60384-8, prepared by IEC TC 40, "Capacitors and resistors for electronic equipment" was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as EN 60384-8:2015.

The following dates are fixed:

- latest date by which the document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2016-01-14
- latest date by which the national standards conflicting with the document have to be withdrawn (dow) 2018-04-14

This document supersedes EN 60384-8:2005.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

Endorsement notice

The text of the International Standard IEC 60384-8:2015 was approved by CENELEC as a European Standard without any modification.

In the official version, for Bibliography, the following notes have to be added for the standards indicated:

IEC 60384-14

NOTE Harmonized as EN 60384-14.

IEC 60384-21

NOTE Harmonized as EN 60384-21.

Annex ZA (normative)

Normative references to international publications with their corresponding European publications

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

NOTE 1 When an International Publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

NOTE 2 Up-to-date information on the latest versions of the European Standards listed in this annex is available here: www.cenelec.eu.

FOREWORD	6
1 General	8
1.1 Scope	8
1.2 Object	8
1.3 Normative references	8
1.4 Information to be given in a detail specification	8
1.4.1 General	8
1.4.2 Outline drawing and dimensions	9
1.4.3 Mounting	9
1.4.4 Ratings and characteristics	9
1.4.5 Marking	10
1.5 Terms and definitions	10
1.6 Marking	10
1.6.1 General	10
1.6.2 Marking for code of temperature coefficient	11
1.6.3 Marking on the body	11
1.6.4 Marking of the packaging	11
1.6.5 Additional marking	11
2 Preferred ratings and characteristics	11
2.1 Preferred characteristics	11
2.2 Preferred values of ratings	11
2.2.1 Rated temperature	11
2.2.2 Rated voltage (U_R)	12
2.2.3 Category voltage (U_C)	12
2.2.4 Preferred values of nominal capacitance and associated tolerance values	12
2.2.5 Temperature coefficient (α)	12
3 Quality assessment procedures	16
3.1 Primary stage of manufacture	16
3.2 Structurally similar components	16
3.3 Certified test records of released lots	16
3.4 Qualification approval	16
3.4.1 General	16
3.4.2 Qualification approval on the basis of the fixed sample size procedure	16
3.4.3 Tests	17
3.5 Quality conformance inspection	22
3.5.1 Formation of inspection lots	22
3.5.2 Test schedule	23
3.5.3 Delayed delivery	23
3.5.4 Assessment levels	23
4 Test and measurement procedures	24
4.1 General	24
4.2 Visual examination and check of dimensions	24
4.3 Electrical tests	24
4.3.1 Capacitance	24
4.3.2 Tangent of loss angle ($\tan \delta$)	25

4.3.3	Insulation resistance (R_i)	25
4.3.4	Voltage proof	26
4.4	Temperature coefficient (α) and temperature cyclic drift of capacitance	27
4.4.1	General	27
4.4.2	Preliminary drying	27
4.4.3	Measuring conditions	27
4.4.4	Requirements	27
4.5	Robustness of terminations	27
4.6	Resistance to soldering heat	27
4.6.1	General	27
4.6.2	Initial measurement	27
4.6.3	Test conditions	27
4.6.4	Final inspection, measurements and requirements	27
4.7	Solderability	28
4.7.1	General	28
4.7.2	Test conditions	28

SIST EN 60384-8:2015

<https://standards.iteh.ai/catalog/standards/sist/1c1e5b21-0ca5-41bf-8b16-100920cdf8c2/sist-en-60384-8-2015>

INTERNATIONAL ELECTROTECHNICAL COMMISSION

FIXED CAPACITORS FOR USE IN ELECTRONIC EQUIPMENT –**Part 8: Sectional specification:
Fixed capacitors of ceramic dielectric, Class 1**

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60384-8 has been prepared by IEC technical committee 40: Capacitors and resistors for electronic equipment.

This fourth edition cancels and replaces the third edition published in 2005. This fourth edition is a result of maintenance activities related to the previous edition. All changes that have been agreed upon can be categorized as minor revisions.

The text of this standard is based on the following documents:

FDIS	Report on voting
40/2338/FDIS	40/2363/RVD

Full information on the voting for the approval of this standard can be found in the report on voting indicated in the above table.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

A list of all parts in the IEC 60384 series, published under the general title *Fixed capacitors for use in electronic equipment*, can be found on the IEC website.

The committee has decided that the contents of this publication will remain unchanged until the stability date indicated on the IEC web site under "<http://webstore.iec.ch>" in the data related to the specific publication. At this date, the publication will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.
