Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Amendment 1 to ISO 3170 was prepared by Technical Committee ISO/TC 28, *Petroleum products and lubricants*, Subcommittee SC 3, *Static petroleum measurement*.

Petroleum liquids — Manual sampling

AMENDMENT 1

Page 1

Subclause 1.2, paragraph 2, line 3

Delete “aviation fuels”.

Page 14

Subclause 7.2.1.2

After subclause 7.2.1.2, insert the following:

7.2.1.3 Samples shall not be drawn from unperforated still-wells, guide poles or stand pipes since the contents of an unperforated pipe are not normally representative of the bulk contents of the tank at the same depth or location outside of the pipe.

Still-well, guide pole or stand pipe samples shall only be drawn from pipes which have perforations which allow the free flow of product into and out of the pipe.

NOTE — A row of perforations with a diameter of 25 mm and spacing of 300 mm is normally sufficient to allow the free flow of the product into and out of the pipe.

Subclause 7.2.1.3

Renumber existing subclause 7.2.1.3 as “7.2.1.4”.

Subclause 7.2.1.4

Renumber existing subclause 7.2.1.4 as “7.2.1.5”.

Subclause 7.2.1.5

Renumber existing subclause 7.2.1.5 as “7.2.1.6”.

Subclause 7.2.1.6

Renumber existing subclause 7.2.1.6 as “7.2.1.7”.

Subclause 7.2.1.7

Renumber existing subclause 7.2.1.7 as “7.2.1.8”.
