1 Scope

This ETS specifies the Profile Test Specification (PTS) summary referencing all the ETSs necessary for the conformance testing of the DECT Generic Access Profile (GAP).

This GAP PTS summary together with the ETSs it references constitute the GAP PTS.

This ETS has the following structure:

- clause 4 contains general information relative to the profile including references to the related ETSs.
- clause 5 contains a summary and references to the ETSs relevant for each of DECT protocol layers to be tested.

2 Normative references

This ETS incorporates, by dated and undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this ETS only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.
