

Designation: D 5506 – 98 (Reapproved 2003)

## Standard Practice for Organizations Engaged in the Certification of Personnel Testing and Inspecting Bituminous Paving Materials<sup>1</sup>

This standard is issued under the fixed designation D 5506; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon ( $\epsilon$ ) indicates an editorial change since the last revision or reapproval.

### 1. Scope

1.1 This practice covers a standard for establishing evaluation and certification procedures for personnel engaged in testing and inspecting bituminous paving materials in accordance with specified test methods and is intended for use by independent organizations providing certification services.

NOTE 1—Refer to Specifications D 3666 for information on the minimum requirements for agencies testing and inspecting bituminous paving materials and to Practice D 4561 for information on quality control systems for organizations producing and applying bituminous paving materials.

1.2 Qualification for certification candidates, qualifications of those administering the certification examinations, methods of administering the certification tests, and certain certification organization operating requirements are given.

1.3 Competency determination typically includes a monitored written examination and a performance evaluation.

1.4 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

### 3. Terminology

#### 3.1 Definitions of Terms Specific to This Standard:

3.1.1 *accreditation*—the formal recognition that a certification organization and its program(s) conform to a set of requirements established by a nationally recognized accreditation body.

3.1.2 *certificant*—an individual who has been certified by a certification organization.

3.1.3 *certification*—an action that determines and announces that an individual has fulfilled the pre-established requirements and is certified to perform the designated task(s) associated with a test method.

3.1.4 *certification organization*—an independent body engaged in the evaluation and credentialing of the knowledge, skills, and abilities of individuals who perform specified tasks.

3.1.5 *examinee*—certification applicant involved in the examination process.
