## Safety of toys - Part 8: Swings, slides and similar activity toys for indoor and outdoor family domestic use

Sécurité des jouets - Partie 8: Balançoires, toboggans et jouets d'activité similaires à usage familial en extérieur et en intérieur

Sicherheit von Spielzeug - Teil 8: Schaukeln, Rutschen und ähnliches Aktivitätsspielzeug für den häuslichen Gebrauch (Innen- und Außenbereich)

This draft amendment is submitted to CEN members for unique acceptance procedure. It has been drawn up by the Technical Committee CEN/TC 52.

This draft amendment A4, if approved, will modify the European Standard EN 71-8:2003. If this draft becomes an amendment, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for inclusion of this amendment into the relevant national standard without any alteration.

This draft amendment was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

**Warning** : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

## Foreword

This document (EN 71-8:2003/prA4:2009) has been prepared by Technical Committee CEN/TC 52 “Safety of toys”, the secretariat of which is held by DS.

This document is currently submitted to the Unique Acceptance Procedure.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EC Directive(s).

For relationship with EC Directive(s), see informative Annex ZA, which is an integral part of this document.

**EN 71-8:2003/prA4:2009 (E)****1 Modification to the Scope**

*Replace the text of the Scope with the following:*

"This part of EN 71 specifies requirements and test methods for activity toys for domestic family use often attached to or incorporating a crossbeam, and similar toys intended for children under 14 years of age to play on or in and to bear the mass of one or more children.

This part of EN 71 also specifies requirements for:

- separately sold accessories for, and components of activity toys;
- separately sold swing elements that are ready for use on or in combination with activity toy ;
- construction packages for activity toys including components used to build activity toys according to a scheduled building instruction.

The scope excludes equipment intended for use in schools, kindergartens, public playgrounds, restaurants, shopping centres and similar public places dealt with in EN 1176 part 1 to 6."

**2 Modification to Annex A, rationale**

*Add the following to A.1 as paragraphs 2, 3 and 4:*

"Components and accessories for activity toys can be obtained separately in the market and are used on existing activity toys.

The same is valid for construction kits for activity toys which allow the end user to build their own activity toy for domestic use.

These products and applications were not specifically mentioned in the scope of the 2003 version of this standard but were already 'de facto' tested by the test houses using the EN 71 standards. In order to improve the safety of all those products commonly made available on the market, these products are now specifically included in the scope of the standard."
