INTRODUCTION

This ISO Recommendation covers symbols for the indication of details on the general arrangement plans of ships.

The symbols are drawn to scale 1 : 100 approximately. For general arrangement plans of the scale 1 : 50 or 1 : 200, the individual symbols should be scaled up or down correspondingly.

All symbols may be drawn in accordance with their size and the proportions of the equipment which they represent.

Under the clauses 1.1, 2.1 and 3.1 basic symbols have been laid down which may be combined with other symbols. Examples of combination have been given at the end of most subclauses.

All types of special equipment, machinery, etc., not contained in this ISO Recommendation, may be symbolized similar to their actual form. For distinction these symbols should be marked by figures and elucidated in the legend.
