

Designation: D5063 – 90 (Reapproved 2004)

## Standard Guide for Use of Certification of Coating Conformance Form<sup>1</sup>

This standard is issued under the fixed designation D5063; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon ( $\epsilon$ ) indicates an editorial change since the last revision or reapproval.

### 1. Scope

1.1 This certification of coating conformance form provides procurement information concerning products being furnished in accordance with a specific coating specification and additional requirements contained in the purchase order (see Fig. 1).

1.2 The completed form can be utilized to help evaluate the acceptability of the paint being furnished.

### 2. Referenced Documents

2.1 *ASTM Standards:*

D16 Terminology for Paint, Related Coatings, Materials, and Applications<sup>2</sup>

### 3. Instructions for Completing Certification Form

3.1 Use only known and industry accepted descriptions. Standard definitions of terms relating to paint, varnish, lacquer, and related materials are provided in Terminology D16 (see Fig. 2).

3.2 The sections are self-explanatory. Applicable information in Section II should be provided by the buyer. Applicable information in Section III should be provided by the seller.

3.3 For two-component coatings, separate forms should be provided for each component, if appropriate.

### 4. Keywords

4.1 certification form; conformance form
