## 1 Scope

This European Standard defines the single module receptacle used in the family of rectangular electrical connectors. The receptacle corresponding to this plug is defined in EN 4165-024. Accessories and protective cover corresponding to those plugs are defined in EN 4165-026. The cavity of this connector is uncoded, so it can accept polarized modules N, A, B, C and D as defined in EN 4165-002.

## 2 Normative references
