## Foreword

This second edition European Telecommunication Standard (ETS) has been produced by the Communication, Networks, and Systems Interconnection Technical Committee (TC32) of ECMA on behalf of its members and those of the European Telecommunications Standards Institute (ETSI).

This ETS is one of a series of standards defining services and signalling protocols applicable to Private Integrated Services Networks (PISN). The series uses the Integrated Services Digital Network (ISDN) concepts as developed by ITU-T and conforms to the framework of standards for Open Systems Interconnection (OSI) as defined by ISO/IEC.

This particular ETS specifies the Identification supplementary services. The Identification supplementary services are:

- Calling Line Identification Presentation (SS-CLIP);
- Connected Line Identification Presentation (SS-COLP); and
- Calling/Connected Line Identification Restriction (SS-CLIR).

The previous (first) edition of this ETS contained a "standalone" specification of these supplementary services. This edition endorses an International Standard, ISO/IEC 14136, published since the publication of the first edition of this ETS.

<b>Transposition dates</b>	
Date of adoption of this ETS (doa):	31 May 1996
Date of latest announcement of this ETS (doa):	31 August 1996
Date of latest publication of new National Standard or endorsement of this ETS (dop/e):	28 February 1997
Date of withdrawal of any conflicting National Standard (dow):	28 February 1997

## Endorsement notice

The text of International Standard ISO/IEC 14136 (1995) was approved by ETSI as an ETS with agreed modifications as given below.

NOTE: New or modified text is indicated using sidebars. In addition, underlining and/or strike-out are used to highlight detailed modifications where necessary.

**Clause 3**

Replace the first paragraph by:

This ETS incorporates by dated and undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this ETS only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

Insert the following normative references at the end of clause 3:

- |      |                                                                                                                                                                                        |
|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| [8]  | ETS 300 171 (1992): "Private Telecommunication Network (PTN); Specification, functional models and information flows; Control aspects of circuit mode basic services".                 |
| [9]  | ETS 300 189 (1992): "Private Telecommunication Network (PTN); Addressing".                                                                                                             |
| [10] | ETS 300 387 (1994): "Private Telecommunication Network (PTN); Method for the specification of basic and supplementary services".                                                       |
| [11] | ETS 300 475-1 (1995): "Private Telecommunication Network (PTN); Reference configuration; Part 1: Reference configuration for PTN eXchanges (PTNX) [ISO/IEC 11579-1 (1994), modified]". |

**Throughout the text of ISO/IEC 14136**

Throughout the text of ISO/IEC 14136, replace references as shown in the table below:

Reference in ISO/IEC 14136	Modified reference
CCITT Recommendation I.130	ETS 300 387 [10]
ISO/IEC 11571	ETS 300 189 [9]
ISO/IEC 11574	ETS 300 171 [8]
ISO/IEC 11579-1	ETS 300 475-1 [11]

**Throughout the text of ISO/IEC 14136**

Throughout the text of ISO/IEC 14136, replace the term "International Standard" by "ETS".
