This European Standard was approved by CENELEC on 1994-03-08.
CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

CENELEC

European Committee for Electrotechnical Standardization
Comité Européen de Normalisation Electrotechnique
Europäisches Komitee für Elektrotechnische Normung

Central Secretariat: rue de Stassart 35, B-1050 Brussels

FOREWORD

The CENELEC questionnaire procedure, performed for finding out whether or not the International Standard IEC 1119-6:1992 could be accepted without textual changes, has shown that no common modifications were necessary for the acceptance as European Standard.

The reference document was submitted to the CENELEC members for formal vote and was approved by CENELEC as EN 61119-6 on 8 March 1994.

The following dates were fixed:

- latest date of publication of an identical national standard (dop) 1995-03-15
- latest date of withdrawal of conflicting national standards (dow) 1995-03-15

For products which have complied with the relevant national standard before 1995-03-15, as shown by the manufacturer or by a certification body, this previous standard may continue to apply for production until 2000-03-15.

Annexes designated "normative" are part of the body of the standard. In this standard, annexes A and ZA are normative.

ENDORSEMENT NOTICE

The text of the International Standard IEC 1119-6:1992 was approved by CENELEC as a European Standard without any modification.

ANNEX ZA (normative)

OTHER INTERNATIONAL PUBLICATIONS QUOTED IN THIS STANDARD
WITH THE REFERENCES OF THE RELEVANT EUROPEAN PUBLICATIONS

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

NOTE : When the international publication has been modified by CENELEC common modifications, indicated by (mod), the relevant EN/HD applies.

INTERNATIONAL ELECTROTECHNICAL COMMISSION

DIGITAL AUDIO TAPE CASSETTE SYSTEM (DAT)

Part 6: Serial copy management system

FOREWORD

- 1) The formal decisions or agreements of the IEC on technical matters, prepared by Technical Committees on which all the National Committees having a special interest therein are represented, express, as nearly as possible, an international consensus of opinion on the subjects dealt with.
- 2) They have the form of recommendations for international use and they are accepted by the National Committees in that sense.
- 3) In order to promote international unification, the IEC expresses the wish that all National Committees should adopt the text of the IEC recommendation for their national rules in so far as national conditions will permit. Any divergence between the IEC recommendation and the corresponding national rules should, as far as possible, be clearly indicated in the latter.

This part of International Standard IEC 1119 has been prepared by Sub-Committee 60A: Sound recording, of IEC Technical Committee No. 60: Recording.

The text of this part is based on the following documents:

<https://standards.iteh.ai/catalog/standards/sist/8543018b-e984-4c49-84b0-6ff0dfba641/sist-en-61119-6-1999>

DIS	Report on Voting
60A(CO)136	60A(CO)144

Full information on the voting for the approval of this part can be found in the Voting Report indicated in the above table.

Annex A forms an integral part of this part of IEC 1119.

DIGITAL AUDIO TAPE CASSETTE SYSTEM (DAT)

Part 6: Serial copy management system

1 Scope

This part of IEC 1119 is applicable to the Digital Audio Tape (DAT) cassette system for consumer applications. It states the requirements for the recording function with digital audio interface signals and for digital output signals on DAT recorders.

2 Normative references

The following normative documents contain provisions which, through reference in this text, constitute provisions of this part of IEC 1119. At the time of publication, the editions indicated were valid. All normative documents are subject to revision, and parties to agreements based on this part of IEC 1119 are encouraged to investigate the possibility of applying the most recent editions of the normative documents indicated below. Members of IEC and ISO maintain registers of currently valid International Standards.

IEC 958: 1989, *Digital audio interface*, Amendment 1 (in preparation).

IEC 1119-1: 1992, *Digital audio tape cassette system (DAT) – Part 1: Dimensions and characteristics*.

[SIST EN 61119-6:1999](https://standards.iteh.ai/catalog/standards/sist/en-61119-6:1999)

IEC 1119-2: 1991, *Digital audio tape cassette system (DAT) – Part 2: DAT calibration tape*.

IEC 1119-3: 1992, *Digital audio tape cassette system (DAT) – Part 3: DAT tape properties*.

IEC 1119-5: 199X, *Digital audio tape cassette system (DAT) – Part 5: DAT for professional use* (in preparation).

3 Technical requirements

3.1 Digital output signals

3.1.1 Category code

The recorder shall provide the category code in the channel status bits of the digital output signal. The category code shall be applied in the digital output signal as follows, in accordance with the status of sub-code ID6 in the main ID of the main data area.

When ID6 is "00" or "10"	"DAT"	(11000000)
When ID6 is "11"	"DAT-P"	(11000001)
