## Child use and care articles - Chair mounted seat

Articles de puériculture - Rehausseurs de chaise

Artikel für Säuglinge und Kleinkinder - Sitzerhöhungen für Stühle

This draft amendment is submitted to CEN members for unique acceptance procedure. It has been drawn up by the Technical Committee CEN/TC 252.

This draft amendment A1, if approved, will modify the European Standard EN 16120:2012. If this draft becomes an amendment, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for inclusion of this amendment into the relevant national standard without any alteration.

This draft amendment was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

**Warning**: This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

## **Foreword**

This document (EN 16120:2012/FprA1:2013) has been prepared by Technical Committee CEN/TC 252 "Child use and care articles", the secretariat of which is held by AFNOR.

This document is currently submitted to the Unique Acceptance Procedure.

#### EN 16120:2012/FprA1:2013 (E)

### 1 Addition of informative Annex B, A-deviation

At the end of the text, add the following annex:

"

# Annex B (informative)

#### A-deviation

**A-deviation:** National deviation due to regulations, the alteration of which is for the time being outside the competence of the CEN-CENELEC national member.

This European Standard does not fall under any Directive of the EU.

In the relevant CEN-CENELEC countries these A-deviations are valid instead of the provisions of the European Standard until they have been removed.

#### **FRANCE**

The French decree N° 91 1292 of December 20, 1991 relating to the prevention of hazards resulting from the use of child care articles, as published in the Official Journal of the French Republic of December 24, 1991, provides under article 2 of title II of its annex that: "child care articles must be made of materials which either do not burn under direct action of a flame, a spark or any other potential seat of fire, or are hardly flammable (the flame extinguishes as soon as the fire cause disappears), or, when flammable, burn slowly with a low flame propagation rate".

Consequently, the requirements in Clause 7 of this European Standard will have to be supplemented, in France, by the following: "The flame propagation rate of textiles, coated textile supports and plastic coverings shall not exceed 30 mm/s when tested in accordance with 5.7 of EN 712:1993."
