# DRAFT AMENDMENT

## ISO 11111-5:2005/DAM 2

ISO/TC 72/SC 8

Secretariat: DIN

Voting begins on:  
2014-12-04Voting terminates on:  
2015-05-04

## Textile machinery — Safety requirements —

### Part 5: Preparatory machinery to weaving and knitting

### AMENDMENT 2

*Matériel pour l'industrie textile — Exigences de sécurité —*

*Partie 5: Machines de préparation au tissage et au tricotage*

*AMENDEMENT 2*

ICS: 59.120.30;59.120.40

#### ISO/CEN PARALLEL PROCESSING

This draft has been developed within the International Organization for Standardization (ISO), and processed under the **ISO lead** mode of collaboration as defined in the Vienna Agreement.

This draft is hereby submitted to the ISO member bodies and to the CEN member bodies for a parallel five month enquiry.

Should this draft be accepted, a final draft, established on the basis of comments received, will be submitted to a parallel two-month approval vote in ISO and formal vote in CEN.

To expedite distribution, this document is circulated as received from the committee secretariat. ISO Central Secretariat work of editing and text composition will be undertaken at publication stage.

THIS DOCUMENT IS A DRAFT CIRCULATED FOR COMMENT AND APPROVAL. IT IS THEREFORE SUBJECT TO CHANGE AND MAY NOT BE REFERRED TO AS AN INTERNATIONAL STANDARD UNTIL PUBLISHED AS SUCH.

IN ADDITION TO THEIR EVALUATION AS BEING ACCEPTABLE FOR INDUSTRIAL, TECHNOLOGICAL, COMMERCIAL AND USER PURPOSES, DRAFT INTERNATIONAL STANDARDS MAY ON OCCASION HAVE TO BE CONSIDERED IN THE LIGHT OF THEIR POTENTIAL TO BECOME STANDARDS TO WHICH REFERENCE MAY BE MADE IN NATIONAL REGULATIONS.

RECIPIENTS OF THIS DRAFT ARE INVITED TO SUBMIT, WITH THEIR COMMENTS, NOTIFICATION OF ANY RELEVANT PATENT RIGHTS OF WHICH THEY ARE AWARE AND TO PROVIDE SUPPORTING DOCUMENTATION.

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

Amendment 2 to ISO 11111-5:2005 was prepared by Technical Committee ISO/TC 72, *Textile machinery and accessories*, Subcommittee SC 8, *Safety requirements for textile machinery*.

## Textile machinery — Safety requirements — Part 5: Preparatory machinery to weaving and knitting; Amendment 2

### AMENDMENT 2

#### *Page v, Introduction*

Replace "ISO 12100-1" in the 3<sup>rd</sup> para with "ISO 12100".

#### *Page 1, Scope*

Add the following sentence as second para:

This standard is complemented by the type C standards ISO 9902 (part 1 and part 5) with respect to noise emission measurement and ISO/DIS 23771 with respect to measures for the reduction of noise emissions.

#### *Clauses 1 to 7*

Throughout the text, replace all the dated references "ISO 11111-1:2005" with ISO 11111-1:—".

#### *Page 2, 5.2*

Replace item b) with the following " Drawing-in points between the beam and the warp threads, the beam and the drive or pressure roller(s), as well as the beam flange and the floor or fixed machine parts, shall be provided with guards or safety devices, for example, one of the following:"

#### *Page 12, Bibliography*

Delete first reference and replace second reference with the following:

"ISO 12100, *Safety of machinery — General principles for design — Risk assessment and risk reduction*"

## **Annex ZA** (informative)

### **Relationship between this International Standard and the Essential Requirements of EU Directive 2006/42/EC**

By agreement between ISO and CEN, this CEN annex is included in the DIS and the FDIS but will not appear in the published ISO standard.

This International Standard has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association to provide one means of conforming to Essential Requirements of the New Approach Directive 2006/42/EC.

Once this standard is cited in the Official Journal of the European Communities under that Directive and has been implemented as a national standard in at least one Member State, compliance with the normative clauses of this standard confers, within the limits of the scope of this standard, a presumption of conformity with the relevant Essential Requirements of that Directive and associated EFTA regulations.

**WARNING:** Other requirements and other EU Directives may be applicable to the products falling within the scope of this standard.
