
**Industrial automation systems and
integration — Product data
representation and exchange —**

Part 210:

**Application protocol: Electronic
assembly, interconnect, and packaging
design**

iTeh STANDARD PREVIEW

(standards.iteh.ai)

*Systèmes d'automatisation industrielle et intégration — Représentation
et échange de données de produits —*

*Partie 210: Protocole d'application: Conception de l'emballage, de
l'interconnexion et de l'assemblage électronique*

This CD-ROM contains the publication ISO 10303-210:2011 in HyperText Markup Language (HTML) format. This second edition cancels and replaces the first edition (ISO 10303-210:2001), of which it constitutes a technical revision.

Installation

If this publication has been packaged as a zipped file, do NOT open the file from the CD-ROM, but copy it to the desired location in your local environment. Once the file has been copied to your local environment, open the file to unzip its contents. For compound documents (e.g. HTML documents comprising several files or folders, documents that have been subdivided owing to the total file size, etc.), in order for the links between documents to function properly, the file and folder names must be maintained and all the files stored in the same folder.

Where the zip file contains a Readme file, it is essential to consult this file to understand the way in which the document has been structured.
