This CD-ROM contains the publication ISO 10303-214:2010 in HyperText Markup Language (HTML) format.

This third edition cancels and replaces the second edition (ISO 10303-214:2003), of which it constitutes a technical revision.

## Installation

If this publication has been packaged as a zipped file, do NOT open the file from the CD-ROM, but copy it to the desired location in your local environment. Once the file has been copied to your local environment, open the file to unzip its contents. For compound documents (e.g. HTML documents comprising several files or folders, documents that have been subdivided owing to the total file size, etc.), in order for the links between documents to function properly, the file and folder names must be maintained and all the files stored in the same folder.

Where the zip file contains a Readme file, it is essential to consult this file to understand the way in which the document has been structured.
