Technical Corrigendum 1 to Technical Report ISO/TR 10064-4:1998 was prepared by Technical Committee ISO/TC 60, Gears.

*Title page, Foreword, page 1*

Delete “Cylindrical gears” from the title of ISO/TR 10064-4, thereby changing it to the following:

*Code of inspection practice — Part 4: Recommendations relative to surface texture and tooth contact pattern checking*

This is to accommodate the coverage of gears other than cylindrical in new parts of ISO/TR 10064.
