In the English version only, please add the following:

3 Definition

For the purposes of this standard, the following definition applies:

tape: A long, narrow, flat textile structure intended to withstand forces, but not intended to absorb energy.

4 Safety requirements

4.1 Stability

When shuttleless loom webbing is used, the weft shall be locked by an additional locking thread or by any other system, which guarantees that the edges cannot be unravelled when one of the yarns breaks.
