- latest date by which the national standards conflicting with the amendment have to be withdrawn (dow) 1995-12-01

10 Temperature-rise limits

10.2 Add the following note:

NOTE: For some applications, a lower maximum temperature rise may be chosen from the values given in column 3 of table IV.

Reference temperatures for load loss will be in accordance with the newly assigned temperature rises (e.g. it should be possible to specify a unit belonging to Class F having a maximum temperature rise of 80 K instead of 100 K).
