

## Annex H (normative)

### Templates for registration proposals

#### H.1 Introduction

This annex contains a set of blank forms that may be used to create proposals for various types of SRM registered items as specified in [Clause 13](#).

These forms include four common initial elements that apply to all instances of SRM concepts that can be registered. These common elements are described in [Table H.1](#).

**Table H.1 — Common registration proposal specification elements**

| Element                            | Definition  |
|------------------------------------|---|
| <b>Date of proposal</b>            | Date the registration proposal is submitted.          |
| <b>Sponsoring authority</b>        | Sponsor of the registration proposal.                 |
| <b>Justification for inclusion</b> | Justification for the registration proposal.          |
| <b>Additional comments</b>         | Any additional comments on the registration proposal. |

#### H.2 Proposal for the registration of a CS

Each proposal for the registration of a CS shall provide values of all of the elements contained in [Table H.1](#) and in [Table H.2](#). The required contents of the specification column are described in [Table 5.5](#).

**Table H.2 — Coordinate system registration proposal elements**

| Element   | Specification |
|---|---------------|
| <b>Description</b>  |               |
| <b>CS label</b>   |               |
| <b>Function type</b>  |               |
| <b>CS descriptor</b>  |               |
| <b>Properties</b>   |               |
| <b>CS parameters and constraints</b>                          |               |
| <b>Coordinate-components</b>                                  |               |
| <b>Domain of the generating function or mapping equations</b> |               |

| Element  | Specification |
|--|---------------|
| <b>Generating function or mapping equations</b>                              |               |
| <b>Domain of the inverse of the generating function or mapping equations</b> |               |
| <b>Inverse of the generating function or mapping equations</b>               |               |
| <b>COM</b>   |               |
| <b>Point distortion</b>  |               |
| <b>Figures</b>   |               |
| <b>Notes</b>   |               |
| <b>References</b>  |               |

### H.3 Proposal for the registration of a temporal CS

Each proposal for the registration of a temporal CS shall provide values of all of the elements contained in [Table H.1](#) and in [Table H.3](#). The required contents of the specification column are described in [Table 6.1](#).

**Table H.3 — Temporal coordinate system registration proposal elements**

| Element                    | Specification                      |
|----------------------------|------------------------------------|
| <b>Temporal CS label</b>   |                                    |
| <b>Description</b>         | <a href="#">ISO/IEC 18026:2009</a> |
| <b>Epoch</b>               |                                    |
| <b>Unit of duration</b>    |                                    |
| <b>Relationship to TAI</b> |                                    |
| <b>References</b>          |                                    |

### H.4 Proposal for the registration of an RD

Each proposal for the registration of an RD shall provide values of all of the elements contained in [Table H.1](#) and in [Table H.4](#). The required contents of the specification column are described in [Table 7.9](#).

**Table H.4 — RD registration proposal elements**

| Element                | Specification |
|------------------------|---------------|
| <b>RD label</b>        |               |
| <b>Description</b>     |               |
| <b>Physical object</b> |               |

| Element    | Specification |
|------------|---------------|
| Parameters |               |
| Date       |               |
| References |               |

## H.5 Proposal for the registration of an ORMT

Each proposal for the registration of an ORMT shall provide values of all of the elements contained in [Table H.1](#) and in [Table H.5](#). The required contents of the specification column are described in [Table 7.11](#).

**Table H.5 — ORMT registration proposal elements**

| Element             | Specification |
|---------------------|---------------|
| ORMT label          |               |
| Description         |               |
| RD set              |               |
| Binding constraints |               |
| Notes               |               |

## H.6 Proposal for the registration of an ORM

Each proposal for the registration of an ORM shall provide values of all of the elements contained in [Table H.1](#) and in [Table H.6](#). The required contents of the specification column are described in [Table 7.15](#).

**Table H.6 — ORM registration proposal elements**

| Element                  | Specification                                |
|--------------------------|--|
| ORM label                |  |
| Published name           |  |
| Reference ORM            |  |
| Binding information      |  |
| Region                   |  |
| ORMT label               |  |
| RD parameterization      |  |
| Reference transformation | Repeat as needed using <a href="#">H.7</a> . |
| References               |  |

## H.7 Proposal for the registration of a reference transformation

Each proposal for the registration of an RT shall provide values of all of the elements contained in [Table H.1](#) and in [Table H.7](#). The required contents of the specification column are described in [Table 7.16](#).

**Table H.7 — RT registration proposal elements**

| Element               | Specification |
|-----------------------|---------------|
| <b>ORM label</b>      |               |
| <b>RT label</b>       |               |
| <b>RT region</b>      |               |
| <b>RT parameters</b>  |               |
| <b>Date published</b> |               |
| <b>References</b>     |               |

## H.8 Proposal for the registration of an OBRS

Each proposal for the registration of an OBRS shall provide values of all of the elements contained in [Table H.1](#) and in [Table H.8](#). The required contents of the specification column are described in [Table 7.17](#).

**Table H.8 — OBRS registration proposal elements**

| Element                     | Specification  |
|-----------------------------|--|
| <b>OBRS label</b>           |  |
| <b>Short name</b>           | <a href="#">ISO/IEC 18026:2009</a>   |
| <b>Object restrictions</b>  | <a href="#">/catalog/standards/iso/bddbeeee-ba53-43e2-b92a-05032bec66f1/iso-iec-18026-2009</a> |
| <b>Object binding rules</b> |  |
| <b>Figures</b>              |  |
| <b>References</b>           |  |

## H.9 Proposal for the registration of an SRFT

Each proposal for the registration of an SRFT shall provide values of all of the elements contained in [Table H.1](#) and in [Table H.9](#). The required contents of the specification column are described in [Table 8.2](#) except where noted otherwise.

**Table H.9 — SRFT registration proposal elements**

| Element                           | Specification |
|-----------------------------------|---------------|
| <b>SRFT label</b>                 |               |
| <b>Short name and description</b> |               |
| <b>Object or object type</b>      |               |
